With an introduction by Will Self. A classic work of psychology, this international bestseller provides a groundbreaking insight into the human mind. If a man has lost a leg or an eye, he knows he has lost a leg or an eye; but if he has lost a self – himself – he cannot know it, because he is no longer there to know it. In this extraordinary book, Dr. Oliver Sacks recounts the stories of patients struggling to adapt to often bizarre worlds of neurological disorder. Here are people who can no longer recognize everyday objects or those they love; who are stricken with violent tics or shout involuntary obscenities; who have been dismissed as autistic or retarded, yet are gifted with uncanny artistic or mathematical talents. If inconceivably strange, these brilliant tales illuminate what it means to be human. A provocative exploration of the mysteries of the human mind, *The Man Who Mistook His Wife for a Hat* is a million-copy bestseller by the twentieth century's greatest neurologist.

A new, sexy standalone from #1 New York Times Bestseller, Vi Keeland. Before I even met Donovan Decker, I knew his shoe size. You see, I'd gone away for a few days, and in my haste to get out of the airport, I'd grabbed the wrong suitcase. After checking out the expensive footwear and tailored clothes, I dialed the number on the luggage tag hoping maybe Mister Big Spender might have my bag. A deep, velvety voice answered, and as luck would have it, he had my suitcase, too. Donovan and I met at a coffee shop to do the exchange. Turned out, it wasn't just his voice that was sexy. The man holding my luggage was absolutely gorgeous, and we had an immediate spark. He got me to admit that I'd snooped in his bag and then convinced me to make it up to him by letting him buy me coffee. Coffee led to dinner, dinner led to dessert, and dessert led to spending an entire weekend together. Donovan wasn't just handsome with a panty-dropping voice. He was also funny, smart, and surprisingly down to earth for a man who wore seven-hundred-dollar shoes. Did I mention he also did my laundry while I slept? Definitely too good to be true. So what did I do to repay him for his kindness? I waited until he was in the shower, then ghosted him. My life was too complicated for such a great guy. In the months that passed, I thought about Donovan often. But New York City had eight-million people, so what were the chances I'd run into him? Then again, what were the chances I'd run into him a year later...when I'd just started dating his boss?

What could be a more tempting Christmas gift than a compendium of David Sedaris's best stories, selected by the author himself? From a spectacular career spanning almost three decades, these stories have become modern classics and are now for the first time collected in one volume. For more than twenty-five years, David Sedaris has been carving out a unique literary space, virtually creating his own genre. A Sedaris story may seem confessional, but is also highly attuned to the world outside. It opens our eyes to what is at absurd and moving about our daily existence. And it is almost impossible to read without laughing. Now, for the first time collected in one volume, the author brings us his funniest and most memorable work. In these stories, Sedaris shops for rare taxidermy, hitchhikes with a lady quadriplegic, and spits a lozenge into a fellow traveler's lap. He drowns a mouse in a bucket, struggles to say 'give it to me' in five languages and hand-feeds a carnivorous bird. But if all you expect to find in Sedaris's work is the deft and sharply observed comedy for which he became renowned, you may be surprised to discover that his words bring more warmth than mockery, more fellow-feeling than derision. Nowhere is this clearer than in his writing about his loved ones. In these pages, Sedaris explores falling in love and staying together, recognizing his own aging not in the mirror but in the faces of his siblings, losing one parent and coming to terms - at long last - with the other. Taken together, the stories in *The Best of Me* reveal the wonder and delight Sedaris takes in the surprises life brings him. No experience, he sees, is quite as he expected - it's often harder, more fraught and certainly weirder - but sometimes it is also much richer and more wonderful. Full of joy, generosity, and the incisive humor that has led David Sedaris to be called 'the funniest man alive' (*Time Out New York*), *The Best of Me* spans a career spent watching and learning and laughing - quite often at himself - and invites readers deep into the world of one of the most brilliant and original writers of our time.

In this e-book edition, Tomie dePaola retells his classic story against a charming musical score. *Strega Nona*—"Grandma Witch"—is the source for potions, cures, magic, and comfort in her Calabrian town. Her magical ever-full pasta pot is especially intriguing to hungry Big Anthony. Big Anthony is supposed to look after her house and tend her garden, but one day, when she goes over the mountain to visit *Strega Amelia*, he recites the magic verse over the pasta pot, with disastrous results.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?
