Life is full of challenges. There are times when you will feel like you've done everything to the best of your ability, but in the end, it still didn't work. Have you ever wondered why? Was it because life is unfair, or was it because you were actually "expecting the worst"? Have you considered expecting the best instead? You may think, "Of course, I considered great things to happen!," but science says otherwise. People who are preparing for something are found to be thinking more of the bad things that could happen than the positive outcomes. More often than not, thinking about unfortunate events actually make it happen. Hoping that you will not be late for a meeting will cause you to be late. Thinking of saying a complex sentence inappropriately actually makes you tongue-tied. Do you know why? It is because your thoughts have the power to change things and events. In this book, you will learn how to master positive thinking by learning about the power of thought and the Law of Attraction. With these core principles, this book will teach you ways on how to think positively by hacking your body, your speech, and your actions. You will know about scientific studies that proved the benefits of positive thinking. You will also be introduced to the successful life teachers who used positivity to become successful. Finally, you will be provided with step-by-step guides on how you can do it yourself. You are on your way to becoming a positive person who will enjoy living a good life by spreading the positive vibrations to the world! After downloading this book you will learn...

Editorial Reviews Review "Inspiring Story for Dyslexic Families and Adults" -Brock & Fernette Eide "Authors, The Dyslexic Advantage"- "What I admired most about the book was the positive attitude the author maintained. When most people would have given up and accepted mediocrity, Rodrigues instead chooses to push the envelope and follows his dreams up to and including enrolling in Harvard University. I love how he takes something that is called a "disability" and turns it into strength. It is evident that he has analyzed the way he thinks visually and found unique methods to work smarter, not harder." -Arline Krieger LDA President, California "John Rodrigues has written an inspiring and empowering story about his personal dyslexic journey. Young people who have dropped out of high school or others who are thinking about returning to get their GED or to go the community college route will be encouraged by his honest recounting, light-hearted tone, and perceptive insights about his thinking style and advantages." --Brock & Fernette Eide "Authors, The Dyslexic Advantage" "We all long for success...usually going the typical route of graduating from High School, spending 4 years at college, starting a job and getting married. It's nice and safe and predictable. Well, seems Mr. Rodrigues couldn't do it that way if he wanted to. But he appears to have a special ability to see people and opportunity for what they are, doors slightly ajar;
