**PRESENTATION: ROLEX DAY-DATE, THE “PRESIDENT’S WATCH”** The Rolex Day-Date is the first wristwatch which indicates the date and the day of the week. In 1956 Rolex presents one of its most successful and most popular watches ever: the Day-Date,. This model is one of the world’s most famous Rolex watches; classic, beautiful, functional, useful and elegant. In 2008 a new chapter of this watch, the Day-date II (ø 41 mm) and in 2015 the new Day-Date 40. Known as “President’s Watch”,

this Rolex Day-Date has characterized and influenced the history of horology with developments and innovations during the years. With high definition unreleased images, technical details, dials variants, history and updated price of every model, this book analyses every reference from 1956 until today.

**TOPICS** In this book the authors examine calibers, dials, cases, bracelets and many more components of every model. You'll find all dials with their variants of color (Stella dial) and material (lapis lazuli, root wood, meteorite, etc). Furthermore: the first Rolex Day-Date, 1800 series, "pie-pan" dials, 18000 series, personalized dials, special series, vintage advertisements, box, papers, Oysterquartz Day-Date, 18200 and 18300 series, Day-Date II, Day-Date 40 and much more. We can read from an official Rolex document: « THE BIRTH OF THE "DATEJUST" AND THE "DAY-DATE" Not satisfied with having realized a selfwinding waterproof watch, we decided to dedicate ourselves to studying the calendar watch. This is how the "Datejust", which clearly indicates the date on the dial in a small aperture with a Cyclops lens which enlarges it so as to make it easier to read, was born. The next stage was the launch of the "Day-Date", a perfected model which also indicates, with letters, the days of the week. The day and the date automatically change every evening at midnight. » These are the words of Roger Federer, a living tennis legend,

about his Day-Date II: "The reason I like my Day-Date so much is because it is a legendary watch, elegant but with a certain spirit, with a touch of modernity added to its stylish black dial".

With today's technology the way it is it has become virtually impossible to tell a well-crafted counterfeit from the authentic without taking it to a skilled and qualified jeweler. This is especially true with stainless steel models. Advancements in counterfeit manufacture have progressed to such a level that it is usually necessary to literally open the back of the watch case and inspect the interior components themselves to ascertain authenticity. Some of today's "Swiss-Made" counterfeits can now run into the hundreds of dollars. In rare cases even into the thousands where counterfeit watch makers will even work in real 14K & 18K gold. Primarily Chinese based companies continue to produce counterfeit watches at staggering numbers and with current technology and the internet, Chinese based companies can now openly market counterfeit products to markets in the United States, Great Britain and Europe. But the real danger lies with the unsuspecting buyer who believes he is buying a real genuine Rolex watch from a private seller who may have advertised a fake as a "Genuine Rolex" watch he has and must sell for a substantially discounted price on the internet. What amazes me most is not the fact that the guy "must sell" his \$6k watch for \$1500. If it's a genuine Rolex worth \$6K, any

reputable jeweler will gladly shell out \$1500 to buy it from him at such a substantially low price. But that so many people out there will fall for this. It is one thing to knowingly buy a fake Rolex, but it's another thing altogether to think you are buying a real Rolex and instead end up buying a well-made, modern counterfeit Rolex. The purpose of this book is to show legitimate buyers every model that we know of that is out there being counterfeited in detail. Who would suspect that the "vintage" model is really a vintage fake that was recently manufactured and manufactured to look exactly in every detail like the "real" model. Here legit buyers can see in detail the actual counterfeit version of a watch they may be looking at so they can see little inconsistencies that exist between the counterfeits and the genuine article.

Bob's Watches The Official Price Guide

For more than a century, Rolex stands apart as the most coveted and most legendary brand of watches in the world. A Rolex connotes many things: the quintessence of the luxury timepiece, a tool of power for movers and shakers, the symbol of passage into adulthood. New labels pop up, styles come and go, but the brand at the top never changes. Ever the record setter—the Daytona that had belonged to Paul Newman was auctioned by Phillips in New York in October 2017 for \$17.8 million—it comes as no surprise that Rolex is the most collected watch label in the world. The history of Rolex is rooted in the visionary spirit of its founder, Hans Wilsdorf. In 1905, young Wilsdorf founded a company in London for the distribution of timepieces, but his true dream was to produce wristwatches—in their infancy at the time, and not very precise—that would be technically durable and reliable, and supremely elegant. The company first concentrated on producing the highest quality movements, and this quest for precision rapidly led to the

first wristwatch in the world to receive the Swiss Certificate of Chronometric Precision, granted by the Official Watch Rating Centre in Bienne in 1910. Four years later, Kew Observatory in Great Britain awarded a Rolex watch a class A certificate, a distinction that had been previously reserved exclusively for marine chronometers. From that date forward, the Rolex wristwatch has been synonymous with precision. Over the last 100 years, Rolex milestones include: the first waterproof watch, the first self-winding mechanism, the first wristwatch to fly over Mt. Everest, the first diver's watch waterproof to 100 meters, the first to withstand magnetic fields of 1,000 gauss, the first to descend the Mariana Trench. Selected by specialist Fabienne Reybaud, each of the exceptional Rolex watch models in this beautiful handcrafted Ultimate Collection volume showcase the most valuable and technically innovative models the luxury watchmaker has produced, including watches never seen in print before: From the first wristwatch dating to the early 1900s and the first Oyster Perpetual from 1931, to an Explorer worn during Sir Edmund Hillary's expedition to the summit of Mt. Everest in 1953 and the Submariner worn by actor George Lazenby in the James Bond film *On Her Majesty's Secret Service*, they are sure to astonish collectors the world over.
