Now, for the first time, C. Paul Herfurth's original books have been completely rewritten with new music and the latest in instrument technique for a new generation of musicians. A New Tune A Day books have the same logical, gentle pace, and keen attention to detail, but with a host of innovations.

The material in the Gekeler Method for Oboe is divided in two parts. The studies in Part I are for the purpose of developing musical style and interpretation; those in Part II are for the study of scales and intervals, and for improvement of articulation.

(Woodwind Method). These studies, a series of short etudes designed to improve technique and musicianship, are intended to supplement or follow any elementary method.

»Award-Winner of the National Flute Association's Newly Published Music Competition«

The Blocki Flute Method Book 1 is an award-winning method designed to give beginners an excellent foundation in beautiful tone, embouchure flexibility, rhythm and technique. This comprehensive and step-by-step approach was written to ensure success and also includes theory and composition projects. The method is designed so students can play in both octaves without having to read the notes in both octaves. This is an incredibly important aspect of teaching beginners. The Blocki Flute Method's unique approach to teaching Five-Note patterns has proven to consistently help even the youngest students develop exceptional technical abilities. Five-note patterns are used as the foundation for teaching new notes, technique, moving between beat levels, simple transposition and fun and easy ear training. Because of the combination of a systematic approach to note reading, fun composition projects, ear training games, and basic theory, this book is also an excellent supplementary book for Suzuki students. As of August 2010: The Blocki Flute Method has been completely updated with the Third Edition. Listen to Samples Katelyn After One and a Half Years of Lessons - YouTube Video What's New in the Third Edition? After using the method for over 10 years, we knew which pieces the students loved and which one were just "okay." Anything that was just "okay" has been replaced with kid tested exciting pieces. There are many new duets and since students love trills we've included many more. These trills have transformed boring octave exercises into motivating pieces such as Half Pipe Stunts, Trampoline Tricks, and Bungee Jumping A's. Other new favorites include the Yankee

Doodle Theme and Variations, The Sad Singing Swan, and the Daring Detective. (Brass Method). The next step for students who have completed the advanced level method for their instrument. The full-page etudes in this series, key-centered and supported by scale and arpeggio exercises, take the student to that next level of performance wherein their accumulated skills allow them to play full-length performance pieces with a high level of musicianship and competence. As such, many states include these pieces in their all-state audition lists.

(Piano/Vocal/Guitar Artist Songbook). 2015 marks the 100th anniversary of the birth of Frank Sinatra and celebrations and concerts are planned for the whole year. Finally, a trumpet book with appeal to kids that focuses on fundamentals taught through songs that young people love to play. Author Larry E. Newman (Beginning Band Fun Book series) created this book to be used as a first year beginning method or as a second year review and continuing book for the progressing intermediate student. The book is crammed with tons of musical examples, scales, arpeggios, songs, solos, duets and trios. Mix and match the trumpet book with other instrument books in this collection to create customized woodwind and brass groups.

Written specifically for elementary students by elementary band teachers with extra-large sized notation, letter names inside the note heads, limited material per page, fun, child-centered graphics and play-a-long videos.

Accent on Achievement is a revolutionary, best-selling band method that will excite and stimulate your students through full-color pages and the most

complete collection of classics and world music in any band method. The comprehensive review cycle in books 1 & 2 will ensure that students remember what they learn and progress quickly. Also included are rhythm and rest exercises, chorales, scale exercises, and 11 full band arrangements among the first two books. Book 3 includes progressive technical, rhythmic studies and chorales in all 12 major and minor keys. Also included are lip slur exercises for increasing brass instrument range and flexibility. Accent on Achievement meets and exceeds the USA National Standards for music education, grades five through eight. This title is available in SmartMusic.

There are many books written for the Piano, Violin, etc., entirely devoted to Technique. This Work is especially written to enable the Student, by practice and application, to overcome any obstacle which may occur in musical passages written for the Cornet. By controlling the Wind Power to play these Exercises as written, in one breath, the Student will acquire ENDURANCE without strain or injury. Train the Muscles which control the Lips, to make them elastic and strong, as only a slight pressure is necessary, and not brute force. The highest as well as the lowest notes can be played with equal tone quality if practiced according to the instructions that precede each Study. Every Cornet Player should have reached a degree of excellence before attempting to play these Exercises. To

become an Expert on the Cornet, one should be familiar with as many Cornet Methods as possible, and so gain the experience of each. Every Exercise in this Book is possible, and not so very difficult if practiced slowly at first, and not too long at a time. I have used them for my daily practice for years, and they have been the means of my reaching the highest notes after playing a two-hour Concert, also of preserving my lips so that they never tire, and what has been a help to me is surely good for other Cornet Players. You cannot expect to attain the highest point of excellence without hard work and perseverance. Never be perfectly satisfied with yourself. Try to make some improvement each day, feeling that it is a pleasure to have conquered that which seemed an impossibility at first. Do not neglect to correct immediately the least fault you make. Bad habits are easily formed, but are difficult to remedy. There are few Celebrated Cornet Soloists, although thousands play the instrument. Most players abuse their practicing by not knowing the proper way, and neglecting to pay more attention to the elementary work. These Studies have been found to be excellent for Clarinet Players as well as Cornet Players. The Clarinet being a Wind Instrument also, all these Exercises will appeal to the Player of that Instrument by following the same instructions.
