Discover the childhood story of Carlos Santana in Gary Golio's Sound of the Heart, Song of the World, featuring illustrations by Rudy Gutierrez, the internationally celebrated artist who created the iconic Carlos Santana Shaman CD cover. Carlos Santana grew up surrounded by music. His father, a beloved mariachi performer, teaches his son how to play the violin when he is only six years old. But when Carlos discovers American blues, he is captivated by the raw honesty of the music. Unable to think of anything else, he loses all interest in the violin. When Carlos finally receives his first guitar, his whole life begins to change. From his early exposure to mariachi to his successful fusing of rock, blues, jazz, and Latin influences, here is the childhood story of a legendary musician. Christy Ottaviano Books

Describes the life and accomplishments of Carlos Santana, from his early career to his rise as one of the greatest guitarists of his time.

This timely new textbook lays bare the ways in which disease and disaster can turn politicians into global leaders or national liabilities. It explains the impact of crises on development and human security and explores how states and societies can respond more effectively. Written primarily for the student of politics, but also drawing from public health, public policy and environmental studies, the book investigates the threats posed by disease and disasters, and demonstrates how states can shape the ways in which these crises unfold. Case studies include: - Diseases such as Covid-19 and Ebola - Natural disasters such as Typhoon Haiyan and the 2010 Haiti earthquake - Manmade disasters such as the Yemen and Congo Civil Wars or famine The book delves deep into how state response to these challenges can impact political and economic stability, and ends by exploring the role played by international institutions and international cooperation in addressing common challenges. This introductory textbook is perfect for undergraduate and masters courses exploring the expanding politics and human security issues surrounding disease and disasters. It will also be of interest to think tanks and policy communities looking for fresh insights to bring into professional practice.
