Bill Lucas, a leading international expert on life-long learning, shows that while we have learned more about how the brain works in the last decade than we have ever known, only a fraction of this is grasped and applied by most people. Power Up Your Mind applies this practical knowledge for the first time and shows you how to learn. Drawing on research from a wide variety of subject areas, from neuroscience to psychology, from motivation theory to accelerated learning, from memory to diet, this book shows how everyone has the capacity to succeed and how most people use only a very small portion of their talents. For learning to be effective, an understanding of how the brain works is essential and unlike most of the recent thinking on the mind, Lucas connects an understanding of the brain with the reality of the workplace and translates what we know about the brain into useful insights for work. Much work-based

training is a waste of time and money because the majority of people are neither emotionally ready nor practically inclined to apply their learning to the way they behave. Power Up Your Mind offers a new model of learning-READY, GO, STEADY-which will revolutionize the way you learn and perform.

Penpals for Handwriting is a complete handwriting scheme for 3-11 year olds that offers clear progression through five developmental stages: physical preparation for handwriting; securing correct letter formation; beginning to join along, securing the joins and practicing speed, fluency and developing a personal style. Penpals is focused on whole-class teaching using digital resources to enable modelling and interactive learning, along with Practice Books and Workbooks to support independent work. The Foundation content is in line with the EYFS Framework and the Year 1-6 content supports frequent, discrete and direct teaching of handwriting for 5-11 year olds, as required by National Curriculum 2014. Penpals supports all UK curricula and CIE Primary English curriculum.

Adopting a practical approach, this resource provides coverage of the theory underpinning the NVQ.

Shakespeare and Text is built on the research and
experience of a leading expert on Shakespeare editing and
textual studies. The first edition has proved its value as an
indispensable and unique guide to its topic. It takes
Shakespeare readers to the very foundation of his work,
explaining how his plays first took shape in the theatre where
writing was part of a larger collective enterprise. The account
examines the early modern printing industry that produced

the earliest surviving texts of Shakespeare's plays. It describes the roles of publisher and printer, the controls exerted through the Stationers' Company, and the technology of printing. A chapter is devoted to the book that gathered Shakespeare's plays together for the first time, the First Folio of 1623. Shakespeare and Text goes on to survey the major developments in textual studies over the past century. It builds on the recent upsurge of interest in textual theory, and deals with issues such as collaboration, the instability of the text, the relationship between theatre culture and print culture, and the book as a material object. Later chapters examine the current critical edition, explaining the procedures that transform early texts in to a very different cultural artefact, the edition in which we regularly encounter Shakespeare. The new revised edition, which builds on Jowett's research for the New Oxford Shakespeare, engages with scholarship of the past decade, work that has transformed our understanding of textual versions, has opened up the taxonomy of Shakespeare's texts, and has significantly extended the picture of Shakespeare as a co-author. A new chapter describes digital text, digital editing, and their interface with the traditional media.

Betty Shine is a remarkable woman. Her extraordinary gifts - a clairvoyant ability to diagnose medically, her healing powers and her discovery of 'mind energy' - have made her one of Britain's foremost healers. Mind to Mind tells her story. Like Betty herself, it is cheerful, down-to-earth and full of humour. It reveals how she became aware of her gifts and how she has used her experiences of mind energy to help others. Illustrated with a wide variety of examples and case histories, this is a uniquely helpful and practical book by a woman whose powers have been a comfort and an inspiration to countless numbers of people.

Structural Design for Fire Safety, 2nd edition Andrew H. Buchanan, University of Canterbury, New Zealand Anthony K. Abu, University of Canterbury, New Zealand A practical and informative guide to structural fire engineering This book presents a comprehensive overview of structural fire engineering. An update on the first edition, the book describes new developments in the past ten years, including advanced calculation methods and computer programs. Further additions include: calculation methods for membrane action in floor slabs exposed to fires; a chapter on composite steel-concrete construction; and case studies of structural collapses. The book begins with an introduction to fire safety in buildings, from fire growth and development to the devastating effects of severe fires on large building structures. Methods of calculating fire severity and fire resistance are then described in detail, together with both simple and advanced methods for assessing and designing for structural fire safety in buildings constructed from structural steel, reinforced concrete, or structural timber. Structural Design for Fire Safety, 2nd edition bridges the information gap between fire safety engineers, structural engineers and building officials, and it will be useful for many

others including architects, code writers, building designers, and firefighters. Key features: • Updated references to current research, as well as new end-of-chapter questions and worked examples. • Authors experienced in teaching, researching, and applying structural fire engineering in real buildings. • A focus on basic principles rather than specific building code requirements, for an international audience. An essential guide for structural engineers who wish to improve their understanding of buildings exposed to severe fires and an ideal textbook for introductory or advanced courses in structural fire engineering.

It's time to stop giving a f*ck! Be calm... Stop stressing... Embrace the universe... Try yoga... Be fulfilled... and that's an order! We hear these commands everywhere, and we often torture ourselves to 'try harder', yet somehow we never feel we've done quite enough. It's about time we stopped feeling guilty for not being perfect, and instead simply allowed ourselves to be

angry, be tired, be silly, be passionate - to stop giving a f*ck, and just be. This international bestseller explains why the key to true mindfulness is freeing ourselves from social and often self-imposed stresses-and highlights how we can embrace life more fully by giving ourselves a break. One of the world's leading teachers of meditation and mindfulness, Midal offers us a new solution to the perennial problem of our too-much, too-fast modern life. It's OK, he urges us, to say no to the things that don't fulfill us. It's necessary, in fact, to give ourselves a break and say, simply, 'F*ck it! C'est la vie'. The French Art of Not Giving a F*ck grants each of us permission to stop doing the things that don't make us happy. So we have room in our lives for the things that do.

The Betrayal of the Body is Alexander Lowen's pioneering study of the mind-body split. Lowen describes the way people deny the reality, needs, and feelings of their bodies. This denial leads to the development of the division between mind and body, creating an over-charged ego obsessed with thinking at the expense of feeling and being. This book illustrates the energetic factors behind the split, the factors that produce it, and the proven therapeutic techniques that are available to treat it. Lowen further explores the mind-body duality in the individual and its parallel duality and dysfunction in society between culture and nature, and between thinking and feeling.

Critical reflection in professional practice is popular across many different professions as a way of ensuring on going scrutiny and improved practice skills
Die Fähigkeit zu mehrsprachigem Projektmanagement ist

eine begehrte Kompetenz: Die digitale Arbeitswelt verlangt nach Fachleuten, die komplexe regionale und globale Herausforderungen gleichermaßen meistern. In der Hochschulausbildung ist deshalb eine zukunftsfähige und praxisnahe Vermittlung von Fremdsprachenkompetenzen gefragt. Digital gestützte Lehr- und Lernwerkzeuge eröffnen hier neue Wege für die Sprachausbildung. Wie diese erfolgreich genutzt werden, zeigen die Autorinnen und Autoren dieses Buches. Ehrlich und kompetent stellen sie Herausforderungen, Erfahrungen und Lösungen vor, unter anderem am best practice-Beispiel „ProFit im Beruf – durch Sprach- und Fachsensibilisierung im Studium“, einem EFRE-geförderten Projekt der Westsächsischen Hochschule Zwickau und der Technischen Universität Liberec (Tschechien). Anhand der Deutsch-als-Fremdsprache-Ausbildung im Bereich Wirtschaft mit regionalem Schwerpunkt in der Grenzregion Tschechien – Sachsen zeigt sich, wie digitale Lehr- und Lernszenarien den Fremdsprachenunterricht beflügeln.

The most commonly used 501 German verbs are arranged alphabetically in a table format, one verb per page with English translation, and conjugated in all tenses and forms. This updated version includes an explanation of the 1999 spelling reform, providing examples of the differences between the two methods. The book's additional features include common idioms with many updated example sentences throughout the book to demonstrate verb usage and a grammar review. Bonus Online Component: includes a link to online content that presents valuable exercises for students in German sentence completion, word completion, word matching, and conversational dialogue, with answers provided for all exercises.
