Escaping to a small coastal town where no one knows her seems to be exactly what she needs. Almost instantly, Thea becomes enamored with the quaint cottage, comforted by its cozy rooms and lovely but neglected garden. The locals in nearby Baldochrie are just as warm, quirky, and inviting. The only person she can't seem to win over is bookshop owner Edward Maltravers, to whom she hopes to sell her uncle's book collection. His gruff attitude--fueled by an infamous, long-standing feud with his brother, a local lord--tests Thea's patience. But bickering with Edward proves oddly refreshing and exciting, leading Thea to develop feelings she hasn't experienced in a long time. As she follows a thrilling yet terrifying impulse to stay in Scotland indefinitely, Thea realizes that her new life may quickly become just as complicated as the one she was running from.

What are the chances that twelve little tokens could change a life?

This book examines the iconic presence of second chances in everyday life. David Newman explores its various iterations in popular culture, commercial marketplaces, religion, intimate relationships, education, criminal justice, and human bodies. He analyzes how this concept—as a cultural aspiration, driver of policy, and lived personal experience—has become part and parcel of our individual sense of self and our

collective national identity. While the rhetoric of redemption is familiar and ubiquitous, Newman uncovers the costs and constraints of second chances, paying particular attention to the factors that affect judgments of deservedness. Informed by an array of data sources including personal interviews, mission statements of nonprofit recovery agencies, images in popular culture, stories from the news, plot summaries of novels, and scriptural texts, Newman frames the second chance experience as the quintessential cultural paradox: a concept that simultaneously represents the pinnacle of our shared hopes for renewal and our deepest suspicions about the intransigence of human nature.

A second chance . . . all of us have needed one at some point in our lives. As children, we beg our parents to give us "just one more chance." As adults, we turn our pleadings to God for another opportunity, just to start over again. In this revised and updated version of *The God of Second Chances*, author Stephen Arterburn takes us through his own journey of pleasure-seeking and ambition to a life-changing encounter with the reality of God's grace. Arterburn is painfully honest, sharing his personal experiences with sexual immorality that culminated in the abortion of his child. It was then, desperate and at the end of himself, that Arterburn cried out to God for a second chance. Through his willingness to share his struggles, Arterburn helps us to confront our failures and reach out for God's restorative touch. With a gentle humor, he encourages us to look beyond ourselves and discover the joy in serving others and

investing in the things that really matter. In doing so, we will learn what it is to be restored to God through unconditional surrender and receive healing from the scars left by our own mistakes.

president. Scorpio knew the assassination would finally earn him the respect of Osama Bin Laden, who had disrespected and belittled him. Everything in the execution of the murder plot was going as planned until Richard Thomas interfered. Richard Thomas was a laid-off electrical engineer from the small city of Erie, Pennsylvania. He had a deep disdain for religion or anything spiritual. During a trip to Israel, Richard, while looking for a non-religious antique, unknowingly purchased four powerful Biblical antiquities from an antique store. After a terror attack in Washington, D.C. that fatally wounded his niece, Richard blamed God for the terror attack. In response, God teaches Richard a lesson using Scorpio and the antiquities.

Having met at Ithaca University as graduate students, the millennial year of 2000 soon approaching, Sydney Steinberg and Corinna Kipnis consider each other their exclusive significant other. engineering. But after some irrepressible soul-searching, he decides on a radical change of course—he will, instead, attempt that more challenging career in the New York financial world he has always aspired to, which, in his estimate, will not only demand his highest level of intellectual mastery but, simultaneously, will also position him at the very cutting edge of significant decision making. This choice and the lifestyle it engenders set Corinna and Syd on deeply discordant life tracks and toward life goals that prove incompatible. In the meantime, Viktor, Corinna’s father and now professor emeritus, has been summoned to California for a hospital visit with his cousin and boyhood hero, Mitchell Kipnis. Despite Mitchell’s palatial Malibu home, Viktor perceives Mitchell’s loneliness as a widower and retiree and convinces him that a prolonged vacation in his old hometown—Thompsonville—is just what the doctor would have ordered. Additionally, Viktor reminds Mitchell, that his son Paul, has just taken a position at Ely College in Thompsonville and would be an added companion. Mitchell consents to this transition and eventually becomes a thoroughly vibrant part of the whole Thompsonville scene. Inevitably, Corinna and Syd separate; and through this painful process, Corinna actually begins to fall in love with another person—having herself attained a depth and confidence she had never before realized. In this generational and career mix of interesting, well-realized characters, there are more than enough opportunities for dynamic clashes of values and priorities—small-town community or big-city glitz? Wealth and power or a dedication to personal development? Parents and their children retaining familial ties between generations or opting to go it alone? Plenty of opportunity for second thoughts. And hopefully discovering second chances along the way, the reader might be drawn into some thoughtful reevaluation of his own basic assumptions. And that is, of course, the best of all outcomes.
