When Caroline Bohentin, Joe McLaren, and Robbie Brekke undergo Previous Life Access Surgery, the journeys into their separate pasts turn out to have an interwoven, horrifying relevance to the future of humankind

Winner, 2019 William J. Goode Book Award, given by the Family Section of the American Sociological Association Finalist, 2019 C. Wright Mills Award, given by the Society for the Study of Social Problems Riveting stories of how affluent, white children learn about race American kids are living in a world of ongoing public debates about race, daily displays of racial injustice, and for some, an increased awareness surrounding diversity and inclusion. In this heated context, sociologist Margaret A. Hagerman zeroes in on affluent, white kids to observe how they make sense of privilege, unequal educational opportunities, and police violence. In fascinating detail, Hagerman considers the role that they and their families play in the reproduction of racism and racial inequality in America. *White Kids*, based on two years of research involving in-depth interviews with white kids and their families, is a clear-eyed and sometimes shocking account of how white kids learn about race. In doing so, this book explores questions such as, "How do white kids learn about race when they grow up in families that do not talk openly about race or acknowledge its impact?" and "What about children growing up in families with parents who consider themselves to be 'anti-racist'?" Featuring the actual voices of young, affluent white kids and what they think about race, racism, inequality, and privilege, *White Kids* illuminates how white racial socialization is much more dynamic, complex, and varied than previously recognized. It is a process that stretches beyond white parents' explicit conversations with their white children and includes not only the choices parents make about neighborhoods, schools, peer groups, extracurricular activities, and media, but also the choices made by the kids themselves. By interviewing kids who are growing up in different racial contexts—from racially segregated to meaningfully integrated and from politically progressive to conservative—this important book documents key differences in the outcomes of white racial socialization across families. And by observing families in their everyday lives, this book explores the extent to which white families, even those with anti-racist intentions, reproduce and reinforce the forms of inequality they say they reject.

From the MAN BOOKER PRIZE- and WOMEN'S PRIZE-SHORTLISTED author of *Swing Time*, *On Beauty* and *Grand Union* 'BELIEVE THE HYPE' The Times 'The almost preposterous talent was clear from the first pages' Julian Barnes, Guardian 'Street-smart and learned, sassy and philosophical all at the same time' New York Times 'Outstanding' Sunday Telegraph The international bestseller and modern classic of multicultural Britain - an unforgettable portrait of London One of the most talked about debut novels of all time, *White Teeth* is a funny, generous, big-hearted novel, adored by critics and readers alike. Dealing - among many other things - with friendship, love, war, three cultures and three families over three generations, one brown mouse, and the tricky way the past has of coming back and biting you on the ankle, it is a life-affirming, riotous must-read of a book.

In an era in which class divisions are becoming starker than ever, some individuals are choosing to marry across class. *The Power of the Past* traces the lives of a subset of these individuals - highly-educated adults who married a partner raised in a class different from their own, primarily between those from blue- and white-color backgrounds. Drawing upon detailed interviews with spouses who revealed the inner workings of their marriages, Jessi Streib shows that crossing class lines is not easy, and that even though these couples shared bank accounts, mortgages, children, and friends, each spouse was still shaped by the class of their past, and consequently, so was their marriage. Streib reveals what was rarely apparent to the husbands and wives she interviewed. The class of their past did not only matter in determining the amount of money they had as children or what job their parents went off to each morning; it also mattered in more subtle ways, by systematically shaping their ideas of how to go about their daily lives. Upwardly mobile spouses who grew up in blue-collar families learned to take a laissez-faire approach to the world around them: they preferred to go with the flow, make the most of the moment, and avoid self-imposed constraints. Their spouses, who grew up in professional white-collar families, however, wanted to manage the world around them: they organized, planned, monitored, and oversaw. Living with a spouse who was born into a different class means navigating these differences - differences that appeared across nearly every aspect of their lives, from how they manage their finances, to how they manage their time - both at home and on vacation - to ideas about how their children should be raised. *The Power of the Past* illustrates that when individuals are raised in different classes, merged lives do not lead to merged ideas about how to lead those lives. Individuals can come together across class lines, but their enduring class characteristics cannot be left behind.

Illuminating the moral dilemmas that lie at the heart of a slaveholding society, this book tells the story of a young slave who was sexually exploited by her master and ultimately executed for his murder. Celia was only fourteen years old when she was acquired by John Newsom, an aging widower and one of the most prosperous and respected citizens of Callaway County, Missouri. The pattern of sexual abuse that would mark their entire relationship began almost immediately. After purchasing Celia in a neighboring county, Newsom raped her on the journey back to his farm. He then established her in a small cabin near his house and visited her regularly (most likely with the knowledge of the son and two daughters who lived with him). Over the next five years, Celia bore Newsom two children; meanwhile, she became involved with a slave named George and resolved at his insistence to end the relationship with her master. When Newsom refused, Celia one night struck him fatally with a club and disposed of his body in her fireplace. Her act quickly discovered, Celia was brought to trial. She received a surprisingly vigorous defense from her court-appointed attorneys, who built their case on a state law allowing women the use of deadly force to defend their honor. Nevertheless, the court upheld the tenets of a white social order that wielded almost total control over the lives of slaves. Celia was found guilty and hanged. Melton A. McLaurin uses Celia's story to reveal the tensions that strained the fabric of antebellum southern society. Celia's case demonstrates how one master's abuse of power over a single slave forced whites to make moral decisions about the nature of slavery. McLaurin focuses sharply on the role of gender, exploring the degree to which female slaves were sexually exploited, the conditions that often prevented white women from stopping such abuse, and the inability of male slaves to defend slave women. Setting the case in the context of the 1850s slavery debates, he also probes the manner in which the legal system was used to justify slavery. By granting slaves certain statutory rights (which were usually rendered meaningless by the customary prerogatives of masters), southerners could argue that they observed moral restraint in the operations of their peculiar institution. An important addition to our understanding of the pre-Civil War era, *Celia, A Slave* is also an intensely compelling narrative of one woman pushed beyond the limits of her endurance by a system that denied her humanity at the most basic level.

The Wayward Girls of Samarcand is the true story of the sensational 1931 Arson Trial in North Carolina. Sixteen poor white teenage girls faced the death penalty for burning down two dormitories at the State Reform School for Girls. Crusading journalist, socialite, and attorney Nell Battle Lewis defended her clients by exposing sadistic treatment, deplorable conditions, and forced sterilization presided over by Samarcand superintendent Agnes B. MacNaughton. In this her first and last trial, Lewis saved the defendants from the electric chair. The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end,

long before it has a chance to begin.

NATIONAL BESTSELLER Winner of the Rakuten Kobo Emerging Writer Prize for Nonfiction Nominated for the Evergreen Award A powerful, moving memoir about what it's like to be a student of colour on a predominantly white campus. A booksmart kid from Toronto, Eternity Martis was excited to move away to Western University for her undergraduate degree. But as one of the few Black students there, she soon discovered that the campus experiences she'd seen in movies were far more complex in reality. Over the next four years, Eternity learned more about what someone like her brought out in other people than she did about herself. She was confronted by white students in blackface at parties, dealt with being the only person of colour in class and was tokenized by her romantic partners. She heard racial slurs in bars, on the street, and during lectures. And she gathered labels she never asked for: Abuse survivor. Token. Bad feminist. But, by graduation, she found an unshakeable sense of self--and a support network of other women of colour. Using her award-winning reporting skills, Eternity connects her own experience to the systemic issues plaguing students today. It's a memoir of pain, but also resilience.

THE SUNDAY TIMES BESTSELLER BOOK OF THE YEAR IN GUARDIAN, ECONOMIST & NEW STATESMAN 'Excellent and provocative... a passionate, timely book.' Sunday Times 'A fine new book... thoughtful, deeply reported and impeccably even-handed.' The Times Emerging from a collection of city states 150 years ago, no other country has had as turbulent a history as Germany or enjoyed so much prosperity in such a short time frame. Today, as much of the world succumbs to authoritarianism and democracy is undermined from its heart, Germany stands as a bulwark for decency and stability. Mixing personal journey and anecdote with compelling empirical evidence, this is a critical and entertaining exploration of the country many in the West still love to hate. Raising important questions for our post-Brexit landscape, Kampfner asks why, despite its faults, Germany has become a model for others to emulate, while Britain fails to tackle contemporary challenges. Part memoir, part history, part travelogue, Why the Germans Do It Better is a rich and witty portrait of an eternally fascinating country.

Focusing on concepts that have been central to investigation of the history and politics of marginalized and disenfranchised populations, this book asks how discourses of 'subalternity' and 'difference' simultaneously constitute and interrupt each other. The authors explore the historical production of conditions of marginality and minority, and challenge simplistic notions of difference as emanating from culture rather than politics.

WARNING: This is not the actual book Looking for Alaska by John Green. Do not buy this reading Sidekick if you are looking for a full copy of this great book. Use this expert sidekick to dissect these themes in Looking for Alaska, while enjoying a detailed analysis of each chapter of the book. If that wasn't enough, we close with potential questions and responses to help you get the conversation started with co-workers, friends, or fellow book club members. This newly discovered gem from the past (2005) has become a must-read, thanks in no small part to the success of Green's 2012 masterpiece: The Fault in Our Stars. As many Green fans have already discovered, our sidekick is the ultimate go-to source for understanding the complexities of John Green's tales of teen angst and tragedy. Looking for Alaska tells the story of Miles Halter, a 16-year-old with a nondescript life who is seeking a "Great Perhaps." In his quest, he finds himself at the Culver Creek Boarding School, where his past life of boredom and safety takes a back seat to adventure and sexual experimentation. His trek to the other side of the tracks takes him only a few steps, as he meets Alaska Young just down the hall at school. She is sexy, funny, and everything else that makes teenage boys drool. She is also a self-destructive sort, headed toward the "After" portion of Looking for Alaska, where everything comes crashing down. As our sidekick details, the themes of life and death weave their way through the novel, drawing the characters closer together while preparing them for something that will rip them apart.

Exposes the new generation of whiteness thriving at the expense and borrowed ingenuity of black people—and explores how this intensifies racial inequality. American culture loves blackness. From music and fashion to activism and language, black culture constantly achieves worldwide influence. Yet, when it comes to who is allowed to thrive from black hipness, the pioneers are usually left behind as black aesthetics are converted into mainstream success—and white profit. Weaving together narrative, scholarship, and critique, Lauren Michele Jackson reveals why cultural appropriation—something that's become embedded in our daily lives—deserves serious attention. It is a blueprint for taking wealth and power, and ultimately exacerbates the economic, political, and social inequity that persists in America. She unravels the racial contradictions lurking behind American culture as we know it—from shapeshifting celebrities and memes gone viral to brazen poets, loveable potheads, and faulty political leaders. An audacious debut, White Negroes brilliantly summons a re-interrogation of Norman Mailer's infamous 1957 essay of a similar name. It also introduces a bold new voice in Jackson. Piercing, curious, and bursting with pop cultural touchstones, White Negroes is a dispatch in awe of black creativity everywhere and an urgent call for our thoughtful consumption.

In the segregated South of the early twentieth century, unwritten rules guided every aspect of individual behavior, from how blacks and whites stood, sat, ate, drank, walked, and talked to whether they made eye contact with one another. Jennifer Ritterhouse asks how children learned this racial "etiquette," which was sustained by coercion and the threat of violence. More broadly, she asks how individuals developed racial self-consciousness. Parental instruction was an important factor--both white parents' reinforcement of a white supremacist worldview and black parents' oppositional lessons in respectability and race pride. Children also learned much from their interactions across race lines. The fact that black youths were often eager to stand up for themselves, despite the risks, suggests that the emotional underpinnings of the civil rights movement were in place long before the historical moment when change became possible. Meanwhile, a younger generation of whites continued to enforce traditional patterns of domination and deference in private, while also creating an increasingly elaborate system of segregation in public settings. Exploring relationships between public and private and between segregation, racial etiquette, and racial violence, Growing Up Jim Crow sheds new light on tradition and change in the South and the meanings of segregation within southern culture.

THE TIMES, SUNDAY TIMES, FINANCIAL TIMES and EVENING STANDARD BOOKS OF THE YEAR 2018 Whiteshift tells the most important political story of the 21st century: how demographic change is transforming Western politics and how to think about the future of white majorities 'Powerful and rigorously researched. . . this is a book that speaks to the most urgent and difficult issues of our time' - John Gray, author of Seven Types of Atheism This is the century of whiteshift. As Western societies are becoming increasingly mixed-race, demographic change is transforming politics. Over half of American babies are non-white, and by the end of the century, minorities and those of mixed race are projected to form the majority in the UK and other countries. The early stages of this transformation have led to a populist disruption, tearing a path through the usual politics of left and right. One of the most crucial challenges of our time is to enable conservatives as well as cosmopolitans to view whiteshift as a positive development. In this groundbreaking book, political scientist Eric Kaufmann examines the evidence to explore ethnic change in

Western Europe and North America. Tracing four ways of dealing with this transformation - fight, repress, flight and join - he charts different scenarios and calls for us to move beyond empty talk about national identity. If we want to avoid more radical political divisions, he argues, we have to open up debate about the future of white majorities. Deeply thought provoking, *Whiteshift* offers a wealth of data to redefine the way we discuss race in the twenty-first century.

In *Letters to My White Male Friends*, Dax-Devlon Ross speaks directly to the millions of middle-aged white men who are suddenly awakening to race and racism. White men are finally realizing that simply not being racist isn't enough to end racism. These men want deeper insight not only into how racism has harmed Black people, but, for the first time, into how it has harmed them. They are beginning to see that racism warps us all. *Letters to My White Male Friends* promises to help men who have said they are committed to change and to develop the capacity to see, feel and sustain that commitment so they can help secure racial justice for us all. Ross helps readers understand what it meant to be America's first generation raised after the civil rights era. He explains how we were all educated with colorblind narratives and symbols that typically, albeit implicitly, privileged whiteness and denigrated Blackness. He provides the context and color of his own experiences in white schools so that white men can revisit moments in their lives where racism was in the room even when they didn't see it enter. Ross shows how learning to see the harm that racism did to him, and forgiving himself, gave him the empathy to see the harm it does to white people as well. Ultimately, Ross offers white men direction so that they can take just action in their workplace, community, family, and, most importantly, in themselves, especially in the future when race is no longer in the spotlight.

This poignant account recalls firsthand the upheaval surrounding court-ordered busing in the early 1970s to achieve school integration. Like many students at the vanguard of this great social experiment, sixth-grader Clara Silverstein was spit on, tripped, and shoved by her new schoolmates. At other times she was shunned altogether. In the conventional imagery of the civil rights era, someone in Silverstein's situation would be black. She was white, however--one of the few white students in her entire school. "My story is usually lost in the historical accounts of busing," Silverstein writes. At the predominantly black public schools she attended in Richmond, Virginia, Silverstein dealt daily with the unintended, unforeseen consequences of busing as she also negotiated the typical passions and concerns of young adulthood--all with little direction from her elders, who seemed just as bewildered by the changes around them. When Silverstein developed a crush on a black boy, when yet another of her white schoolmates switched to a private school, when she naively came to class wearing a jacket with a Confederate flag on it, she was mostly on her own to contend with the fallout. Silverstein's father had died when she was seven. Another complication: she was Jewish. As her black schoolmates viewed her through the veil of race, Silverstein gazed back through her private grief and awareness of religious difference. Inspired by her parents' ideals, Silverstein remained in the public schools despite the emotional stakes. "I was lost," she admits. "If I learned nothing else, I did come to understand the scourge of racism." Her achingly honest story, woven with historical details, confronts us with powerful questions about race and the use of our schools to engineer social change.

* Instant NEW YORK TIMES and USA TODAY bestseller * * GOODREADS CHOICE AWARD WINNER for BEST DEBUT and BEST ROMANCE of 2019 * * BEST BOOK OF THE YEAR* for VOGUE, NPR, VANITY FAIR, and more! * What happens when America's First Son falls in love with the Prince of Wales? When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine through? Casey McQuiston's *Red, White & Royal Blue* proves: true love isn't always diplomatic. "I took this with me wherever I went and stole every second I had to read! Absorbing, hilarious, tender, sexy—this book had everything I crave. I'm jealous of all the readers out there who still get to experience *Red, White & Royal Blue* for the first time!" - Christina Lauren, New York Times bestselling author of *The Unhoneymooners* "Red, White & Royal Blue is outrageously fun. It is romantic, sexy, witty, and thrilling. I loved every second." - Taylor Jenkins Reid, New York Times bestselling author of *Daisy Jones & The Six*

A Gentle Invitation into the Challenging Topic of Privilege The notion that some might have it better than others, for no good reason, offends our sensibilities. Yet, until we talk about privilege, we'll never fully understand it or find our way forward. Amy Julia Becker welcomes us into her life, from the charm of her privileged southern childhood to her adult experience in the northeast, and the denials she has faced as the mother of a child with special needs. She shows how a life behind a white picket fence can restrict even as it protects, and how it can prevent us from loving our neighbors well. *White Picket Fences* invites us to respond to privilege with generosity, humility, and hope. It opens us to questions we are afraid to ask, so that we can walk further from fear and closer to love, in all its fragile and mysterious possibilities. From the author of *Soulfire* comes a provocative story about Shawna Riley and Kari Lang, two highschool classmates who share a dislike for each other until they accidentally find out a secret about their parents' shared past. Reprint. Winner of the British Academy's Nayef Al-Rodhan Prize for Global Cultural Understanding 2020 Highly commended for PEN Hessel-Tiltman Prize 2020 A haunting and evocative history of British empire, told through one woman's family story "Where are you from?" was the question hounding Hazel Carby as a girl in post-war London. One of the so-called brown babies of the Windrush generation, born to a Jamaican father and Welsh mother, Carby's place in her home, her neighbourhood, and her country of birth was always in doubt. Emerging from this setting, Carby untangles the threads connecting members of her family in a web woven by the British Empire across the Atlantic. We meet Carby's working-class grandmother Beatrice, a seamstress challenged by poverty and disease. In England, she was thrilled by the cosmopolitan fantasies of empire, by cities built with slave-trade profits, and by street peddlers selling fashionable

Jamaican delicacies. In Jamaica, we follow the lives of both the “white Carbys” and the “black Carbys,” including Mary Ivey, a free woman of colour, whose children are fathered by Lilly Carby, a British soldier who arrived in Jamaica in 1789 to be absorbed into the plantation aristocracy. And we discover the hidden stories of Bridget and Nancy, two women owned by Lilly who survived the Middle Passage from Africa to the Caribbean. Moving between Jamaican plantations, the hills of Devon, the port cities of Bristol, Cardiff, and Kingston, and the working-class estates of South London, Carby’s family story is at once an intimate personal history and a sweeping summation of the violent entanglement of two islands. In charting British empire’s interweaving of capital and bodies, public language and private feeling, Carby will find herself reckoning with what she can tell, what she can remember, and what she can bear to know.

Memoir about a precocious boy with albinism from a rural Philippine village who grew up to become a woman in America, describing her navigation through the complex spheres of race, class, sexuality, and her place within the gay/LGBTQ community.

White identity is in ferment. White, European Americans living in the United States will soon share an unprecedented experience of slipping below 50% of the population. The impending demographic shifts are already felt in most urban centers and the effect is a national backlash of hyper-mobilized political, and sometimes violent, activism with a stated aim that is simultaneously vague and deadly clear: 'to take our country back.' Meanwhile the spectre of 'minority status' draws closer, and the material advantages of being born white are eroding. This is the political and cultural reality tackled by Linda Martín Alcoff in *The Future of Whiteness*. She argues that whiteness is here to stay, at least for a while, but that half of whites have given up on ideas of white supremacy, and the shared public, material culture is more integrated than ever. More and more, whites are becoming aware of how they appear to non-whites, both at home and abroad, and this is having profound effects on white identity in North America. The young generation of whites today, as well as all those who follow, will have never known a country in which they could take white identity as the unchallenged default that dominates the political, economic and cultural leadership. Change is on the horizon, and the most important battleground is among white people themselves. *The Future of Whiteness* makes no predictions but astutely analyzes the present reaction and evaluates the current signs of turmoil. Beautifully written and cogently argued, the book looks set to spark debate in the field and to illuminate an important area of racial politics.

A bullet misses its target in Sarajevo, a would-be Austrian painter gets into the Viennese academy, Lord Halifax becomes British prime minister in 1940 instead of Churchill: seemingly minor twists of fate on which world-shaking events might have hinged. Alternative history has long been the stuff of parlor games, war-gaming, and science fiction, but over the past few decades it has become a popular stomping ground for serious historians. The historian Richard J. Evans now turns a critical, slightly jaundiced eye on a subject typically the purview of armchair historians. The book's main concern is examining the intellectual fallout from historical counterfactuals, which the author defines as "alternative versions of the past in which one alteration in the timeline leads to a different outcome from the one we know actually occurred." What if Britain had stood at the sidelines during the First World War? What if the Wehrmacht had taken Moscow? The author offers an engaging and insightful introduction to the genre, while discussing the reasons for its revival in popularity, the role of historical determinism, and the often hidden agendas of the counterfactual historian. Most important, Evans takes counterfactual history seriously, looking at the insights, pitfalls, and intellectual implications of changing one thread in the weave of history. A wonderful critical introduction to an often-overlooked genre for scholars and casual readers of history alike.

Thanks to Facebook and Instagram, our younger selves have been captured and preserved online. But what happens, Kate Eichhorn asks, when we can't leave our most embarrassing moments behind? Rather than a childhood cut short by a loss of innocence, the real crisis of the digital age may be the specter of a childhood that can never be forgotten.

A New York Times Best Seller Merging real stories with theory, research, and practice, a prominent scholar offers a new approach to teaching and learning for every stakeholder in urban education. Drawing on his own experience of feeling undervalued and invisible in classrooms as a young man of color and merging his experiences with more than a decade of teaching and researching in urban America, award-winning educator Christopher Emdin offers a new lens on an approach to teaching and learning in urban schools. For *White Folks Who Teach in the Hood...and the Rest of Y'all Too* is the much-needed antidote to traditional top-down pedagogy and promises to radically reframe the landscape of urban education for the better. He begins by taking to task the perception of urban youth of color as unteachable, and he challenges educators to embrace and respect each student's culture and to reimagine the classroom as a site where roles are reversed and students become the experts in their own learning. Putting forth his theory of Reality Pedagogy, Emdin provides practical tools to unleash the brilliance and eagerness of youth and educators alike—both of whom have been typecast and stymied by outdated modes of thinking about urban education. With this fresh and engaging new pedagogical vision, Emdin demonstrates the importance of creating a family structure and building communities within the classroom, using culturally relevant strategies like hip-hop music and call-and-response, and connecting the experiences of urban youth to indigenous populations globally. Merging real stories with theory, research, and practice, Emdin demonstrates how by implementing the “Seven C’s” of reality pedagogy in their own classrooms, urban youth of color benefit from truly transformative education. For *White Folks Who Teach in the Hood...and the Rest of Y'all Too* has been featured in *MotherJones.com*, *Education Week*, *Weekend All Things Considered* with Michel Martin, *Diverse: Issues in Higher Education*, *PBS NewsHour.com*, *Slate*, *The Washington Post*, *Scholastic Administrator Magazine*, *Essence Magazine*, *Salon*, *ColorLines*, *Ebony.com*, *Huffington Post Education*

This volume aims to show how southerners have faced their post and constructed a self. The essays in this volume explore the different personal narratives and strategies southern authors have employed to channel the autobiographical impulse and give artistic expression to their anxieties, traumas and revelations, as well as their relationship with the region. With the discussion of different types of memoirs, this volume reflects not only the transformation that this sub-genre has undergone since the 1990s boom but also its flexibility as a popular form of life-writing.

'An ambitious and engrossing investigation of the moral legacies which stubbornly refuse to pass' Brendan Simms As the western world struggles with its legacies of racism and colonialism, what can we learn from the past in order to move forward? Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings. Neiman, who grew up as a white girl in the American South during the civil rights movement, is a Jewish woman who has spent much of her adult life in Berlin. In clear and gripping prose, she uses this unique perspective to combine philosophical reflection, personal history and conversations with both Americans and Germans who are grappling with the evils of their own national histories. Through focusing on the particularities of those histories, she provides examples for other nations, whether they are facing resurgent nationalism, ongoing debates over reparations or controversies surrounding historical monuments and the contested memories they evoke. It is necessary reading for all those confronting their own troubled pasts. The International Bestseller 'With clarity and compassion, DiAngelo allows us to understand racism as a practice not restricted to "bad people." In doing so, she moves our national discussions forward. This is a necessary book for all people invested in societal change' Claudia Rankine *Anger. Fear. Guilt. Denial. Silence.* These are the ways in which ordinary white people react when it is pointed out to them that they have done or said something that has - unintentionally - caused racial offence or hurt. After, all, a racist is the worst thing a person can be, right? But these reactions only serve to silence people of colour, who cannot give honest feedback to 'liberal' white people lest they provoke a dangerous emotional reaction. Robin DiAngelo coined the term 'White Fragility' in 2011 to describe this process and is here to show us how it serves to uphold the system of white supremacy. Using knowledge and insight gained over decades of running racial awareness workshops and working on this idea as a Professor of Whiteness Studies, she shows us how we can start having more honest conversations, listen to each other better and react to feedback with grace and humility. It is not enough to simply hold abstract progressive views and condemn the obvious racists on social media - change starts with us all at a practical, granular level, and it is time for all white people to take responsibility for relinquishing their own racial supremacy. 'By turns mordant and then inspirational, an argument that powerful forces and tragic histories stack the deck fully against racial justice alongside one that we need only to be clearer, try harder, and do better' David Roediger, *Los Angeles Review of Books* 'The value in *White Fragility* lies in its methodical, irrefutable exposure of racism in thought and action, and its call for humility and vigilance' Katy Waldman, *New Yorker* 'A vital, necessary, and beautiful book' Michael Eric Dyson

Edgar Award nominee stuns in this heartrending tale set in a Swaziland boarding school where two girls of different castes bond over a shared copy of *Jane Eyre*. Adele Joubert loves being one of the popular girls at Keziah Christian Academy. She knows the upcoming semester at school is going to be great with her best friend Delia at her side. Then Delia dumps her for a new girl with more money, and Adele is forced to share a room with Lottie, the school pariah, who doesn't pray and defies teachers' orders. But as they share a copy of *Jane Eyre*, Lottie's gruff exterior and honesty grow on Adele, and Lottie learns to be a little sweeter. Together, they take on bullies and protect each other from the vindictive and prejudiced teachers. Then a boy goes missing on campus and Adele and Lottie must rely on each other to solve the mystery and maybe learn the true meaning of friendship.

With an executive order from President Franklin Roosevelt in 1941, the United States Marine Corps--the last all-white branch of the U.S. military--was forced to begin recruiting and enlisting African Americans. The first black recruits received basic training at the segregated Camp Montford Point, adjacent to Camp Lejeune, near Jacksonville, North Carolina. Between 1942 and 1949 (when the base was closed as a result of President Truman's 1948 order fully desegregating all military forces) more than 20,000 men trained at Montford Point, most of them going on to serve in the Pacific Theatre in World War II as members of support units. This book, in conjunction with the documentary film of the same name, tells the story of these Marines for the first time. Drawing from interviews with 60 veterans, *The Marines of Montford Point* relates the experiences of these pioneers in their own words. From their stories, we learn about their reasons for enlisting; their arrival at Montford Point and the training they received there; their lives in a segregated military and in the Jim Crow South; their experiences of combat and service in World War II, Korea, and Vietnam; and their legacy. The Marines speak with flashes of anger and humor, sometimes with sorrow, sometimes with great wisdom, and always with a pride fostered by incredible accomplishment in the face of adversity. This book serves to recognize and to honor the men who desegregated the Marine Corps and loyally served their country in three major wars.

Separate Pasts Growing Up White in the Segregated South University of Georgia Press

NEW YORK TIMES BESTSELLER When they were kids in the suburbs of Los Angeles in the 1950s, Diane Keaton and her younger brother, Randy, were best friends and companions. But as they grew up, Randy became troubled, then reclusive. Before he was thirty, he was divorced, an alcoholic, a man who couldn't hold on to full-time work—his life a world away from his sister's, and from the rest of their family. Now Diane delves into the nuances of their shared, and separate, pasts to confront the difficult question of why and how Randy ended up living his life on "the other side of normal." In beautiful and fearless prose intertwined with journal entries, letters, and poetry—much of it Randy's own—and supplemented by personal photographs and artwork, this insightful, heartfelt memoir contemplates the inner workings of a family, the ties of love and responsibility that hold it together, and the special bond between siblings—even those who are pulled far apart. "This biography of Charles follows him from childhood in a Mississippi sharecropper's cabin to his violent death on New Orleans' Saratoga Street. With the few clues available, William Ivy Hair has pieced together the story of a man whose life spanned the thirty-four years from emancipation to 1900—a man who tried to achieve dignity and self-respect in a time when people of his race could not exhibit such

characteristics without fear of reprisal" -- publisher website (October 2006).

In 1963, at the age of 17, Dwayne Hallston discovers James Brown and wants to perform just like him. His band, the Amazing Rumble, studies and rehearses Brown's Live at the Apollo album in the storage room of his father's shop in their small North Carolina town. Meanwhile, Dwayne's forbidden black friend Larry -- aspiring to play piano like Thelonius Monk -- apprentices to a jazz musician called the Bleeder. His mother hopes music will allow him to escape the South. A dancing chicken and a mutual passion for music help Dwayne and Larry as they try to achieve their dreams and maintain their friendship, even while their world says both are impossible. In *The Night Train*, Edgerton's trademark humor reminds us of our divided national history and the way music has helped bring us together.

In *Separate Past* Melton A. McLaurin honestly and plainly recalls his boyhood during the 1950s, an era when segregation existed unchallenged in the rural South. In his small hometown of Wade, North Carolina, whites and blacks lived and worked within each other's shadows, yet were separated by the history they shared. *Separate Past* is the moving story of the bonds McLaurin formed with friends of both races—a testament to the power of human relationships to overcome even the most ingrained systems of oppression. A new afterword provides historical context for the development of segregation in North Carolina. In his poignant portrayal of contemporary Wade, McLaurin shows that, despite integration and the election of a black mayor, the legacy of racism remains.

"Whew! They going to send around here and tie you up and drag you off to Milledgeville. Them fat blue police chasing tomcats around alleys." —Berenice in *The Member of the Wedding* by Carson McCullers A scathing and original look at the racist origins of the field of modern psychiatry, told through the story of what was once the largest mental institution in the world, by the prize-winning author of *Memoir of a Race Traitor* After a decade of research, Mab Segrest, whose *Memoir of a Race Traitor* forever changed the way we think about race in America, turns sanity itself inside-out in a stunning book that will become an instant classic. In December 1841, the Georgia State Lunatic, Idiot, and Epileptic Asylum was founded on land taken from the Cherokee nation in the then-State capitol of Milledgeville. A hundred years later, it had become the largest insane asylum in the world with over ten thousand patients. To this day, it is the site of the largest graveyard of disabled and mentally ill people in the world. In April, 1949, *Ebony* magazine reported that for black patients, "the situation approaches Nazi concentration camp standards . . . unbelievable this side of Dante's *Inferno*." Georgia's state hospital was at the center of psychiatric practice and the forefront of psychiatric thought throughout the nineteenth and twentieth centuries in America—centuries during which the South invented, fought to defend, and then worked to replace the most developed slave culture since the Roman Empire. A landmark history of a single insane asylum at Milledgeville, Georgia, *A Peculiar Inheritance* reveals how modern-day American psychiatry was forged in the traumas of slavery, the Civil War, and Reconstruction, when African Americans carrying "no histories" entered from Freedmen's Bureau Hospitals and home counties wracked with Klan terror. This history set the stage for the eugenics and degeneracy theories of the twentieth century, which in turn became the basis for much of Nazi thinking in Europe. Segrest's masterwork will forever change the way we think about our own minds.

The author recounts his childhood in 1950s North Carolina and explains how his friendships with Blacks his own age and older changed his outlook on segregation.

WINNER OF THE THURBER PRIZE The compelling, inspiring, (often comic) coming-of-age story of Trevor Noah, set during the twilight of apartheid and the tumultuous days of freedom that followed. One of the comedy world's brightest new voices, Trevor Noah is a light-footed but sharp-minded observer of the absurdities of politics, race and identity, sharing jokes and insights drawn from the wealth of experience acquired in his relatively young life. As host of the US hit show *The Daily Show with Trevor Noah*, he provides viewers around the globe with their nightly dose of biting satire, but here Noah turns his focus inward, giving readers a deeply personal, heartfelt and humorous look at the world that shaped him. Noah was born a crime, son of a white Swiss father and a black Xhosa mother, at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the first years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, take him away. A collection of eighteen personal stories, *Born a Crime* tells the story of a mischievous young boy growing into a restless young man as he struggles to find his place in a world where he was never supposed to exist. *Born a Crime* is equally the story of that young man's fearless, rebellious and fervently religious mother - a woman determined to save her son from the cycle of poverty, violence and abuse that ultimately threatens her own life. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Noah illuminates his curious world with an incisive wit and an unflinching honesty. His stories weave together to form a personal portrait of an unlikely childhood in a dangerous time, as moving and unforgettable as the very best memoirs and as funny as Noah's own hilarious stand-up. *Born a Crime* is a must read.

On January 12, 1912, an army of textile workers stormed out of the mills in Lawrence, Massachusetts, commencing what has since become known as the "Bread and Roses" strike. Based on newspaper accounts, magazine reportage, and oral histories, Watson reconstructs a Dickensian drama involving thousands of parading strikers from fifty-one nations, unforgettable acts of cruelty, and even a protracted murder trial that tested the boundaries of free speech. A rousing look at a seminal and overlooked chapter of the past, *Bread and Roses* is indispensable reading.
