time, there was nothing that could stop the two of them from being together. Who knew that Xi Shuangzhe had lost his memory and became someone else's husband ... The man who had once been deeply in love with her had pushed her against the corner of the wall at the wedding. He had lifted her chin with his finger, and his eyes sparkled as he said, "We feel pretty good together. How about you treat me as your mistress?" Chen Xi Wu's eyes widened as she looked at his red lips, at a loss of what to do. — — It took her three months to get used to her new identity — Xi's aunt. Watching him hug others tenderly every day, his heart could no longer bear the torment. On summer afternoons he was kissed by her with a rose in his hand: "I tell you! I'm not your aunt. I don't want to be your aunt in this life! "I am..." She swallowed the rest of her words. Who is she? He couldn't even remember.

To what extent are the children of Holocaust perpetrators to feel remorseful or responsible for their parents' wrongdoing? Is the yearning by those offspring of Nazi sympathizers for forgiveness justified, or should they separate themselves from their parents or relatives and ignore the history? Such dilemmas have gnawed at theologian Martin Rumscheidt ever since, at age eighteen, he discovered his father's complicity in using Jewish slave labor at his workplace, IG Farben. He has written and spoken extensively about his journey in search of what he calls a theology of mourning that would preserve his concept of the reality of God and still recognize the reality--at times grim reality--of life.

Brady Dietrich Bonhoeffer's example of self-sacrificing discipleship has for over fifty years inspired Christians around the world in both their resistance to evil and their devotion to Jesus Christ. Yet for some readers--particularly those who suffer trauma, abuse, and other forms of violence--Bonhoeffer's insistence on self-sacrifice, on becoming a person for others, may prove more harmful than liberating. For those already socialized into self-abnegation, uncritical applications of Bonhoeffer's teachings may reinforce submission, rather than resistance, to evil. This study explores Bonhoeffer's understandings of selfhood and spiritual formation, both in his own experience and writings and in light of the role of gender in psycho-spiritual development. The central constructive chapter creates a mediated conversation between Bonhoeffer and these feminist psychologists on the spiritual formation of survivors of trauma and abuse, including not only dimensions of his thinking to be

critiqued from this perspective but also important resources he contributes toward a truly liberating Christian spirituality for those on the underside of selfhood. The book concludes with suggestions regarding the broader relevance of this study and implications for ministry. The insights for spiritual formation developed here provide powerful proof of Bonhoeffer's continuing and concretely contextualized relevance for readers across the full spectrum of human selfhood.

Transition economies, such as the countries in Southeast Europe, face an expeditious institutional transition from a centrally planned to a market economy. The state withdraws from its monitoring function, which results in institutional voids that affect the economy in general and small and medium sized enterprises (SMEs) in specific. With a qualitative case study approach Tine Schrammel develops a scheme to detect institutional voids as one source of competitive disadvantages of SMEs in transition economies. In a second step she demonstrates that specific cluster services bridge institutional voids and improve the competitive position of SMEs in environments of institutional voids. The findings add to the understanding of institutional voids and to the role of clusters in transition economies.

This two-volume set considers the role and significance of religion in post-war Britain, focusing, in particular, upon the closely inter-related themes of the decline of a specifically 'Christian Society' and the emergence of a culturally and religiously plural society. Three core questions are examined in depth: to what extent and in what ways has religion

remained a significant factor in British culture and society in the period since 1945?, what role does religion play in interpreting and understanding the development of a multi-cultural and multi-ethnic society in post-war Britain?, and to what extent has Britain remained (or ceased to be) a 'religious society' during this period. Volume 1: Traditions analyses the history and development of the major religious groups present in Britain in the period since 1945. The major religious traditions examined include the traditional Christian churches, Judaism, Islam, Hinduism, Sikhism, Afro-Caribbean religious groups, New Religious Movements, and the 'implicit' religion of the 'silent majority' who remain detached from organised religion but are by no means simply secular.

Volume 2: Controversies explores some of the challenges, tensions and controversies presented by the emergence of an increasingly religiously plural society in Britain since 1945. In particular, it focuses on the impact of religious pluralism on both the Christian churches and other religious traditions, the relationship between communal and national 'identities' and religion, women and religion, and the relationship between religion and changing attitudes to personal - and especially sexual - morality.

Over recent decades China has experienced massive change and development. China is the world's fastest growing economy, and has become a global superpower once again. But this development has thrown up a number of seemingly intractable contradictions, both political and economic. In this panoramic study of Chinese history in the twentieth century and its place in the development of global capitalism, Lin Chun argues that the paradoxes of contemporary Chinese society are not simply the product of the development of capitalism or modernity in the country. They are instead the product of the contradictions of its long revolutionary history, as well as the social and political consequences of its post-socialist transition. Published to coincide with the 100th anniversary of the founding of the Chinese Communist Party, *Revolution and Counterrevolution in China* charts China's epic revolutionary trajectory in search of a socialist alternative to the global system, and asks whether market reform must repudiate and overturn the revolution and its legacy.

These captivating essays by Pope Benedict XVI deal with various issues facing the Church in the world today, including what unites and divides denominations, liturgy and sacred music, peace and justice in crisis, and interreligious dialogue and Jewish-Christian relations. As David Schindler notes in his introduction, "Cardinal Ratzinger -- Pope Benedict XVI -- rarely writes on any churchly matter that does not manifest its implications for man and culture, and vice versa. Indeed, this indissoluble linking is one of the main distinguishing features of his theology." This volume on the Church is to be followed by two others from Pope Benedict on, respectively, the themes of anthropology and theological renewal.

about baby loss? Where could they turn for help? Who would answer their burning questions? One in four pregnancies ends in miscarriage; one in 200 in stillbirth. And yet, while the church offers resources to cope with suffering generally, there is often an echoing silence when it comes to the trauma of baby loss. 'When we lost our daughter Edith,' say Jonny and Joanna, 'it was painful indeed to find the lack of biblically rooted and pastorally sensitive resources.' Nothing really hit the mark, so, through tears, they wrote this book. It comes to you, or someone close to you, with a massive hug. It is the authors' prayer and passion that you will be amazed by our great God as you connect with deep truths from the Bible, bringing healing to your heart, mind and soul.

Lurid depictions of sex and impotence, themes of emperor worship and violence, the use of realism and myth--these characterize the fiction of Mishima Yukio and Oe Kenzaburo. Susan Napier discovers surprising similarities as well as provocative dissimilarities in the work of two writers of radically different political orientations. Napier places Yukio's and Kenzaburo's fiction in the context of postwar Japanese political and social realities and, in a new preface for the paperback edition, reflects on each writer's position in the tradition of Japanese literature.

There has been an explosion of research into the experiences of British Muslims, but what has been conspicuous by its absence is a proper historical treatment of the phenomenon. This book aims to address this issue. Set in ancient Japan, Natsuhiko Kyogoku's chilling series interweaves tales of karma and retribution with supernatural tricksters and spirits. In Shibaemon the Raccoon-Dog, the leader of a famed traveling puppet troupe on the island of Awaji is asked by his feudal lord to take a mysterious guest into his house, little suspecting where it will lead. Art imitates life in this horrific tale involving a shape-shifting raccoon-dog, a serial murderer, and a young samurai with ties to Japan's ruling clan.

The importance of the Himalayan state of Nepal has been obscured by the international campaign to free Tibet and the vicissitudes of the Sino-Indian rivalry. This book presents the history of Nepal's domestic politics and foreign relations from ancient to modern times. Analysing newly declassified reports from the United States and Britain, published memoirs, oral recollections and interviews, the book presents the historical interactions between Nepal, China, Tibet and India. It discusses how the ageing and inevitable death of the 14th Dalai Lama, the radicalization of Tibetan diaspora and the ascendancy of the international campaign to free Tibet are of increasing importance to Nepal. With its position between China and India, the book notes how the focus could shift to Nepal, with it being home to some 20,000 Tibetan refugees and its chronic political turmoil, deepened by the Asian giants' rivalry. Using a chronological approach, the past and present of the rivalry between China and India are studied, and attempts to chart the future are made. The book contributes to a new understanding of the intricate relationship of Nepal with these neighbouring countries, and is of interest to students and scholars of South Asian studies,

Disability and chronic illness represents a special kind of cultural diversity, the "other" to "normal" able-bodiedness. Most studies of disability consider disability in North American or European contexts; and studies of diversity in Japan consider ethnic and cultural diversity, but not the differences arising from disability. This book therefore breaks new ground, both for scholars of disability studies and for Japanese studies scholars. It charts the history and nature of disability in Japan, discusses policy and law relating to disability, examines caregiving and accessibility, and explores how disability is viewed in Japan. Throughout the book highlights the tension between individual responsibility and

state intervention, the issues concerning how care for disability is paid for, and the special problem of how Japan is providing care for its large and increasing population of elderly people.
