Mendoza the Jew combines a graphic history with primary documentation and contextual information to explore issues of nationalism, identity, culture, and historical methodology through the life story of Daniel Mendoza. Mendoza was a poor Sephardic Jew from East London who became the boxing champion of Britain in 1789. As a Jew with limited means and a foreign-sounding name, Mendoza was an unlikely symbol of what many Britons considered to be their very own "national" sport.

Describes the water cycle and the importance of water, explaining evaporation and condensation, dew and frost, and the three states of water.

Pictures and text celebrate girls from around the world. Cognitive Behaviour Therapy (CBT) is now well established as an effective treatment for a range of mental health problems, but for clinicians working with older clients, there are particular issues that need to be addressed. Topics covered include the need to build a therapeutic relationship, dealing with stereotypical thinking about ageing, setting realistic expectations in the face of deteriorating medical conditions, maintaining hope when faced with difficult life events such as the loss of a spouse, disability, etc., and dealing with the therapist's own fears about ageing. Illustrated throughout with case studies, practical solutions and with a troubleshooting section, this is essential reading for

all clinical psychologists, psychiatrists and related health professionals who work with older people. *

Authors are world authorities on depression and psychotherapy with older people * First book to be published on CBT with older people * Case studies and examples used throughout to illustrate the method and the problems of older people

Without revealing when the original was published, Copeland says he has incorporated subsequent events, and has clarified his argument that taking the wrong side of the slavery issue was not the Convention's only error, but merely its most pernicious. He continues to assert that the position not only contributes to ongoing racism, but also has possible effects on foreign missions, relations with American Baptists, responses to the ecumenical movement, the treatment of women, and attempts to enforce orthodoxy of belief. He was a Baptist missionary. Annotation copyrighted by Book News, Inc., Portland, OR

This book covers all the factors any ceramic artist should consider when going "green" including: fuels and alternative firing technology; sustainable ways to collect and use clay; ways to deal with waste materials and save water; simple and achievable methods by which to reduce the carbon footprint of ceramic art; and examples of practitioners who reclaim, reuse and recycle in their work.

Every great dish has a center of gravity, a flavor or essence that pulls together other ingredients into a coherent and compelling whole. It's not necessarily the main ingredient but it is fundamentally what the dish is "about". Indian curry spices, fiery Thai chilis, lemony citrus, smoky barbecue rubs: these are all flavors we adore and get our taste buds asking for more. When we talk about wine or alcoholic drinks in any serious way, we talk about flavor too. Flavor is, quite simply, what makes us passionate about food and drink. At last, here is a cookbook that focuses on that fundamental concept. Organized around a dozen or more distinctive tastes, from spicy to citrus to salty to smoky to sweet to bitter and beyond, The Flavor Principle will feature more than 30 complete menus with complementary beverage pairings. Covering

flavors from all over the world, this cookbook will be a journey around the globe. Modern and eclectic in approach, *The Flavour Principle* will appeal to a wide demographic of food and wine lovers. The publication of *A Matter of Taste* in 2005 set the tone for HarperCollins Canada's cookbook program; *The Flavour Principle* is meant not just as an update of that venerable publication, but will set a new bar for food and beverage pairing cookbooks.

"The actor will do, in public, what is considered impossible." When the renowned Polish director Jerzy Grotowski began his 1967 American workshop with these words, his students were stunned. But within four weeks they themselves had experienced the "impossible." In *An Acrobat of the Heart*, teacher-director-playwright Stephen Wangh reveals how Jerzy Grotowski's physical exercises can open a pathway to the actor's inner creativity. Drawing on Grotowski's insights and on the work of Stanislavski, Uta Hagen, and others, Wangh bridges the gap between rigorous physical training and practical scene and character technique. Wangh's students give candid descriptions of their struggles and breakthroughs, demonstrating how to transform these remarkable lessons into a personal journey of artistic growth. Courageous and compelling, *An Acrobat of the Heart* is an invaluable resource for actors, directors, and teachers alike.

A New Way of Looking at Power at Work Who hasn't left the office after a particularly frustrating day wondering what they could have done to turn a negative experience into a positive one? Perhaps it was a difficult conversation with a domineering boss, or an encounter with a know-it-all peer who made you feel insecure. Would you believe the way you react to these interactions likely stems from the dynamics you experienced as a child? Could it be that your childhood persona has grown into your power persona at work? In *Power Genes*, executive coach Maggie Craddock reveals how to kick those old habits—trying too hard to please, acting out, using manipulative methods of persuasion—and tells how to use power more effectively to advance your career. Craddock identifies four power types and explains how to

diagnose yours: • The Pleaser—you make others feel good about themselves but need constant validation and approval from them • The Charmer—you draw others in with your charm, yet trust is your Achilles heel • The Commander—you take charge of the situation and gain admiration from others, but fear any loss of control • The Inspirer—you are star power in action, yet your vision for the future can derail the needs of workers right now The book outlines a process for avoiding your type's signature destructive reflexes and replacing them with new behaviors—helping you to interact productively with other people in the office. By showing you how to recognize your type's blind spots and then recondition your actions, Power Genes will give you the insights and action plan you need to become a more consistently powerful professional. It's time to throw out unproductive habits and take charge of your workplace relationships.

Every generation or so an opera singer attains the kind of public adulation and affection usually reserved for film stars or pop singers. Luciano Pavarotti reached this level of fame: he was the most celebrated tenor of all time, his concerts attended by thousands, his records selling millions of copies. In *Pavarotti: My World*, he talks candidly about his successes and trials, from his forays into popular music and his performances in China, to the boos he endured at La Scala, from the near-fatal illness of his youngest daughter, to his worldwide efforts to convert people to the joys of classical music and opera. Pavarotti's acclaimed autobiography shows us how this great artist felt about his extraordinary voice, how he saw his work and how he regarded his extraordinary position in the world of music and entertainment. Generously illustrated with photographs taken from Pavarotti's private collection, this is an intimate, absorbing and wonderfully honest account of an astonishing talent.
