The Indigenous Enumeration Strategy (IES) of the Australian National Census of Population and Housing has evolved over the years in response to the perceived 'difference' of the Aboriginal and Torres Strait Islander populations. Its defining characteristics are the use of locally recruited, mostly Indigenous collector interviewers, and the administration of a modified collection instrument in discrete Indigenous

communities, mostly in remote Australia. The research reported here is unique. The authors, with the assistance of the Australian Bureau of Statistics, were able to follow the workings of the IES in the 2006 Census from the design of the collection instrument to the training of temporary census field staff at the Northern Territory's Census Management Unit in Darwin, to the enumeration in four remote locations, through to the processing stage at the Data Processing Centre in Melbourne. This allowed the tracking of data from collection to processing, and an assessment of the effects of information flows on the quality of the data, both as input and output. This study of the enumeration involved four very different locations: a group of small outstation communities (Arnhem Land), a large Aboriginal township (Wadeye), an 'open' town with a majority Aboriginal population (Fitzroy Crossing), and the minority Aboriginal population of a major regional centre (Alice Springs). A comparison between these contexts reveals differences that reflect the diversity of remote Aboriginal Australia, but also commonalities that exert a powerful influence on the effectiveness of the IES, in particular very high levels of short-term mobility. The selection of sites also allowed a comparison between the enumeration process in the Northern Territory, where a time-extended rolling count was explicitly planned for, and Western Australia, where a modified form of the standard count had been envisaged. The findings suggest that the IES has reached a point in its development where the injection of ever-increasing resources into essentially the same generic set and structure of activities may be producing diminishing returns. There is a need for a new kind of engagement between the Australian Bureau of Statistics and local government and Indigenous community-sector organisations in remote Australia. The agency and local knowledge of Indigenous people could be harnessed more effectively

through an ongoing relationship with such organisations, to better address the complex contingencies confronting the census process in remote Indigenous Australia.

A fiercely authentic, critically acclaimed and award-winning modern classic. 'Speak up for yourself - we want to know what you have to say.' From my first day at Merryweather High, I know this is a lie. Nobody will even talk to me, let alone listen - all because I called the cops on an end-of-summer party. But if I could only tell everyone why I called the police that night... If I could explain what happened to me... If I could speak... Then everything might change. 'With the rise of women finding their voices and speaking out about sexual assault in the media, this should be on everyone's radar... Powerful, necessary, and essential.' - Kirkus

Grade oral improvement positively The authors provide formative assessments for 17 language functions with step-by-step lesson plans, aligned to ACTFL guidelines. Each plan includes a wealth of conversation and extension activities. There are ready-to-use checklists including the "I Can" log that helps students plot their own progress. Research has confirmed that when teachers use formative assessment, students can learn in six to seven months what would normally take a school year to learn. You'll find yourself using this book every day because of the gains your students will achieve in foreign language fluency.

My English Garden is an innovative course in English language learning, which combines principles of communicative language learning with a functional approach to grammar through task-based learning.

The analysis of metaphors constitutes an ideal point of entry into the exegesis of Biblical Hebrew poetic texts because it forces the exegete to examine the said text from a variety of perspectives. How can one discern the presence of metaphorical speech? What are the various types of metaphorical speech available to and employed by the biblical poet? How does the structure of a piece of Hebrew poetry carry its metaphorical dimensions? How did the biblical poet make use of the various types of metaphor and to what end? Can we ultimately gain access to the poet's meaning? The present study endeavours to provide at least a partial answer to these questions. In maintaining focus on the biblical text, moreover,

the author hopes to anchor some of the abstractions of metaphorical theory with chosen examples taken from the so-called 'Apocalypse of Isaiah'. The Hebrew prophets constitute fertile ground in their use of metaphorical language for speaking the unspeakable, especially concerning the relationship between the people and God.

This concise MBA-level communication manual applies the rhetorical principles of writing and speaking to managerial communication. The book offers guidance for specific tasks of writing (letter, memos, reports, proposals, and resumes) and of speaking (meetings, group presentations, questions and answer sessions, and interviewing). Both end-of-chapter exercises and an end-of book exercise workshop provide ample practice in the common forms of communication. This updated, revised edition reflects use of new technology in the research process and has increased emphasis on meetings.

Speaking of Speaking aims to enrich the reading of the biblical text by offering a coordinated analysis of direct discourse markers, not only in order to consolidate a considerable body of work that is often overlooked by scholars, but also to move further toward a synthesis that can permit informed generalizations not possible at the present time. A personal story of the lifelong impact of rape and a call to action in the age of #MeToo and #TimesUp New Directions in American Politics introduces students not just to how the American political system works but also to how political science works. La Raja brings together top scholars to write original essays across the standard curriculum of American government and politics, capturing emerging research in the discipline in a way that is

accessible for undergraduates. Each chapter combines substantive knowledge with the kind of skill-building and analytical inquiry that is being touted in higher education everywhere. Contributors to *New Directions* highlight why the questions they seek to answer are critical for understanding American politics, and situate them in the broader context of controversies in research. The teaching of American politics follows a well-worn path. Textbooks for introductory courses hew to a traditional set of chapters that describe the Founding, American institutions, the ways citizens participate in politics, and sometimes public policy. The material rarely engages students in the kind of questions that animate scholarship on politics. One hurdle for instructors is finding material that reflects quality scholarship—and thus teaches students about why, not just what—and yet is accessible for undergraduates. Articles in scholarly journals are typically unsuited for undergraduate courses, particularly introductory courses. What is needed is a book that conveys exciting trends in scholarship across vital topics in American politics and illustrates analytical thinking. *New Directions in American Politics* is that book and will be an ideal companion to standard textbooks that focus mostly on nuts and bolts of politics. The book features: Contributions from a top-notch cast of active scholars and a highly regarded editor A focus on analytical thinking that

addresses questions of causality Full coverage of the American politics curriculum Short interviews with each contributor on a companion website to help the research come alive and prompt critical thinking questions for students Work that draws on the highest quality research in political science but is written specifically for first year undergraduate students. There is simply no book like this available to the growing number of faculty who want their introductory American politics course to be a reflection of the political science discipline and not just the nuts and bolt facts of the American political system.

Identity politics dominates the organisation of liberation movements today. This is the case whether fighting over one's birthright to a nation, such as in the Palestinian/Israeli conflict; lobbying for civil rights, such as in gay and lesbian campaigns for marriage; or struggling for citizenry recognition as currently experienced by asylum seekers. In this book Carolyn D'Cruz investigates the nexus between what David Birch describes as 'the seemingly impossible of high theory and the seemingly accessible possibilities of popular discourse', as encountered in liberation movements based on identity. D'Cruz reworks the logic of such movements through the unique combination of Derridean deconstruction, Foucauldian discourse and Levinasian ethics. Moving both within and between the domains of philosophy, politics and 'postmodern culture' this book offers both a clear explication of complex philosophical issues and an understanding of how they relate to the political practicalities of everyday life.
