The Student Edition of the inside story of private equity dealmaking. Over the last 40 years, LBO fund managers have demonstrated that they are good at making money for themselves and their investors. But when one looks beneath the surface of the transactions they engineer, it is apparent that these deals can, at times, go spectacularly wrong. Through 14 business stories, all emanating from the noughties' credit bubble and including headline-grabbing names like Caesars, Debenhams, EMI, Hertz, Seat Pagine Gialle and TXU, The Debt Trap shows how, via controversial practices like quick flips, repeat dividend recaps, heavy cost-cutting and asset-stripping, leveraged buyouts changed, for better or for worse, the way private companies are financed and managed today. From technological disruption in the worlds of music recording and business-directory publishing to economic turbulence in the gambling, real estate and energy sectors, highly levered corporations are often incapable of handling market corrections when debt commitments start piling up. Behind the historical events and the financial empires erected by some of the elite private equity specialists, these 14 in-depth case studies examine how value-maximising techniques and a short-cut mentality can impact investment returns and portfolio assets. Whether you are a PE practitioner, investor, business manager, academic or business student, you will find The Debt Trap to be an authoritative and fascinating account.

In *Introductory Logic*, you'll get the benefit of James B. 'She is tolerable, but not handsome enough to tempt me; and I

am in no humour at present to give consequence to young ladies who are slighted by other men.' Such is the unpromising start to one of the most well-known relationships in English literature. Can vivacious, intelligent, but fortuneless Elizabeth Bennet and the wealthy, reserved and seemingly haughty Mr Darcy see past their first impressions of one another? Jane Austen's 1813 novel paints a witty picture of Georgian society, showing through the ups and downs of the five Bennet sisters the lengths to which women must go to secure a husband and position - and, in Elizabeth's case, to find a marriage of true minds.

Thomas Hobbes' *Leviathan* is arguably the greatest piece of political philosophy written in the English language. Written in a time of great political turmoil (Hobbes' life spanned the reign of Charles I, the Civil Wars, the Commonwealth and the Protectorate, and the Restoration), *Leviathan* is an argument for obedience to authority grounded in an analysis of human nature. Since its first publication in 1991 Richard Tuck's edition of *Leviathan* has been recognised as the single most accurate and authoritative text, and for this revised edition Professor Tuck has provided a much amplified and expanded introduction, which will provide students unfamiliar with Hobbes with a cogent and accessible introduction to this most challenging of texts. Other vital aids to study include an extensive guide to further reading, a note on textual matters, a chronology of important events and brief biographies of important persons mentioned in Hobbes' text. The e-book edition does not include the audio CD that's included with the paperback edition. The most authoritative guide on cantillation. Joshua Jacobson's masterpiece?the comprehensive 1000-page guide to cantillation?is now available in this e-book edition. It is an ideal instructional guide for adult and young-adult students of Torah, for b'nai mitzvah students, and for cantors, rabbis, and Jewish educators of all denominations. Like the original edition, it includes an explanation of the tradition and a description of the practice of chanting, with all its regional variations and grammatical rules. There is detailed instruction, with musical notation, on chanting of Torah, and shorter instructions for chanting the haftarah, the megillot, and readings for the High Holy Days. Joshua Jacobson, professor of music and conductor of the acclaimed Boston-based Zamir Chorale, has been Torah chanting since he was 10 years old. That life-long experience, combined with an unquenchable desire to reconnect the art of cantillation with the most convincing and accurate treatment of the ancient text possible, led him to create this indispensable teaching tool. Using Jacobson's highly acclaimed approach, the ancient words come alive in a new, deeply emotional and most accurate way.

In its centennial year, Marcel Proust's masterpiece of literary imagination is available in a Norton Critical Edition. Marcel Proust's seven-volume masterpiece, *In Search of Lost Time (A la recherche du temps perdu)*, has inspired many superlatives, among them "the greatest novel ever written" and "the greatest novel of the first half of the twentieth century." *Swann's Way*, the first volume of the *Recherche* and the most widely read and taught of all the volumes, is the ideal introduction to Proust's inventive genius. This Norton Critical Edition is based on C. K. Scott Moncrieff's translation, which introduced the English-speaking world to Proust and was published during the author's lifetime. It is accompanied by Susanna Lee's introduction, note on the text, and explanatory annotations. Marcel Proust was forty-two years old when *Swann's Way* was published, but its foundational ideas and general shape had been evolving for decades. "Contexts" includes a 1912 reader's report of the manuscript that exemplifies publishers' complicated reactions to Proust's new form of writing. Also included are

three important post-publication reviews of the novel, by Elie-Joseph Bois, Lucien Daudet, and Paul Souday, as well as André Arnyvelde's 1913 interview with Proust. The fourteen critical essays and interpretations of *Swann's Way* in this volume speak to the novel's many facets—from the musical to the artistic to its representations of Judaism and homosexuality. Contributors include Gérard Genette, whose "Metonymy in Proust" appears here in English translation for the first time, along with Gilles Deleuze, Roger Shattuck, Claudia Brodsky, Julia Kristeva, Margaret E. Gray, and Alain de Botton, among others. The edition also includes a Chronology of Proust's Life and Work, a Selected Chronology of French Literature from 1870 to 1929, and a Selected Bibliography.

The text of the novel is based on the first edition of 1847. For the Fourth Edition, the editor collated the 1847 text with the two modern texts (Norton's William J. Sale collation and the Clarendon), and found a great number of variants, including accidentals. This discovery led to changes in the body of the Norton Critical Edition text that are explained in the preface. New to "Backgrounds and Contexts" are additional letters, a compositional chronology, related prose, and reviews of the 1847 text. "Criticism" collects five important assessments of *Wuthering Heights*, three of them new to the Fourth Edition, including Lin Haire-Sargeant's essay on film adaptations of the novel.
