It is aimed primarily at mid-level courses, but is an excellent choice for an introductory course in any paralegal program. This text is unique from other introductory texts in two important ways. The first is that paralegal skills are taught in the context of a single fictional case, Smith v. Lemon Motors. Students learn the skills necessary to prepare the Smith case for trial in a step-by-step, easy to follow format. The second is in the substantive law and the legal ethics chapters where general rules and principles of law are illustrated with actual cases. These cases also provide an opportunity to develop the important skill of reading case law. According to the NALA, the Certified Paralegal Examination have five sections, which are: Communications Judgment and Analytical Ability Ethics Legal Research Substantive Law The first 2 sections require essay answers. All others are MC based. The Substantive Law section further includes five parts. One is on the American Legal System which is required of all examinees while the other 4 parts are in practice areas of law and that may be selected by examinees. This book covers Ethics, Legal Research, the American Legal System and Criminal Law, plus Contract Law. When we develop our material we do not classify topics the official way. In fact, we follow our own flow of instructions which we think is more logical for the overall learning process. Don't worry, it does not hurt to do so, as long as you truly comprehend the material. To succeed in the exam, you need to read as many reference books as possible. There is no single book that can cover everything! This Exam FOCUS book focuses on the more difficult topics that will likely make a difference in exam results. The book is NOT intended to guide you through every single official topic. You should therefore use this book together with other reference books for the best possible preparation outcome.

The Louisiana Notary Exam has a 20% pass rate. The Notary Exam has an official Study Guide you use during the exam. But the Study Guide has no index, no big picture, no study strategies, no exam-day tips, no paginated cross-references . . . and few of the forms notaries use that they test your understanding of. It's got the law and notary rules, but it's missing essentials for any such textbook. This book has all that—and much more that anyone contemplating the Notary Exam should read. It even includes crucial information about notary practice that every newbie notary ought to know. Basically it's the rest of the official Study Guide they somehow omitted. Why would they leave out the index, of all things? Reminder: a 20% pass rate. As a senior law teacher and member of two state bars, Professor Childress still needed to pass the Louisiana Notary Exam to start practicing as one. It's a challenging exam for everyone, yet he found in the 'Study Guide' lots of trees but little forest—and even less real guidance.

Determined that current test-takers can do better with more real help, he wrote this book and geared the page numbers—including a detailed index—to the 2020 edition of the state's official text, Fundamentals of Louisiana Notarial Law and Practice. An affordable addition to the Self-Study Sherpa Series from Quid Pro Books.
