To - day a trip through Western Canada brings hundreds of them into view, every one of them making money for the owners. No machine introduced to the Canadian farmer has ever met the instant popularity which has come to the gasoline tractor. This popularity is rightly deserved. For no one machine has done more to make possible the great wheat crops which have given Western Canada the name, The Breadbasket of the World. By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.
