THE STORY: The home of the Blackwoods near a Vermont village is a lonely, ominous abode, and Constance, the young mistress of the place, can't go out of the house without being insulted and stoned by the villagers. They have also composed a nasty s

Where does a fire escape lead? Can it really save lives? Is it, in fact, a way out of danger? These questions are at the heart of the 17 episodes in *The Fire Escape Stories, Volume II*, a coming-of-age collection set in the early 1960s that builds upon the nine tales in *The Fire Escape Stories, Volume I*, which are set in the 1950s. In *Volume I*, cousins Sally-Boy Boccanera and Mike Burns, are born one-minute apart on the same day in the same Brooklyn Hospital in 1948. The fire escape is the safe shared space where the two youths talk, play, and try to understand the world that is emerging. In *Volume II*, the fire escape transforms into a different space. It is where teenagers Sally-Boy and Mike share stolen beers, swap stories, take girls, and confront one another. In *Volume II*, life starts to change significantly for the boys. Decisions become more difficult and potentially serious consequences loom over every choice. Though the fire escape remains a sanctuary of sorts, as the boys grow and their paths threaten to diverge, the question begins to loom: Can the fire escape provide all the safety and answers they need? Slowly, the boys see distinctly different worlds emerging. Sometimes together, and at other times on their own, they confront the emotional confusion of adolescence and grapple with their choices, decisions, and directions. Other people enter the boys' lives, impacting their closeness to one another and posing challenges for them to consider...for better or for

worse. Along the way, the boys experience laughter, sorrow, and change...and each realizes he must make a life-altering decision: Does he take the fire escape? Or does he choose a different route?

Biography of experiences by an American living in Southeast Turkey and Northern Iraq during and after the first Gulf War. Frances FitzGerald's landmark history of Vietnam and the Vietnam War, "A compassionate and penetrating account of the collision of two societies that remain untranslatable to one another." (New York Times Book Review) This magisterial work, based on Frances FitzGerald's many years of research and travels, takes us inside the history of Vietnam--the traditional, ancestor-worshiping villages, the conflicts between Communists and anti-Communists, Catholics and Buddhists, generals and monks, the disruption created by French colonialism, and America's ill-fated intervention--and reveals the country as seen through Vietnamese eyes. Originally published in 1972, FIRE IN THE LAKE was the first history of Vietnam written by an American, and subsequently won the Pulitzer Prize, the Bancroft Prize, and the National Book Award. With a clarity and insight unrivaled by any author before it or since, Frances FitzGerald illustrates how America utterly and tragically misinterpreted the realities of Vietnam.

A novel constructed around the last great poem of a fictional American poet, John Shade, and an account of his death. The poem appears in full and the narrative develops through the lengthy, and increasingly eccentric, notes by his posthumous editor.

This book puts a face on women in the fire service, as they share their best stories and the challenges, triumphs, joys and sorrows of being a firefighter, on the line in service to their communities.

The harrowing story of the most destructive American wildfire in a century. There is no precedent in postwar American history for the destruction of the town of Paradise, California. On November 8, 2018, the community of 27,000 people was swallowed by the ferocious Camp Fire, which razed virtually every home and killed at least 85 people. The catastrophe seared the American imagination, taking the front page of every major national newspaper and top billing on the news networks. It displaced tens of thousands of people, yielding a refugee crisis that continues to unfold. *Fire in Paradise* is a dramatic and moving narrative of the disaster based on hundreds of in-depth interviews with residents, firefighters and police, and scientific experts. Gee and Dani Anguiano are California-based journalists who have reported on Paradise since the day the fire began. Together they reveal the heroics of the first responders, the miraculous escapes of those who got out of Paradise, and the horrors experienced by those who were trapped. Their accounts are intimate and unforgettable, including the local who left her home on foot as fire approached while her 82-year-old father stayed to battle it; the firefighter who drove into the heart of the inferno in his bulldozer; the police officer who switched on his body camera to record what he thought would be his final moments as the flames closed in; and the mother who, less than 12 hours after giving birth in the local hospital, thought she would die in the chaotic evacuation with her baby in her lap. Gee and Anguiano also explain the science of wildfires, write powerfully about the role of the power company PG&E in the blaze, and describe the poignant efforts to raise Paradise from the ruins. This is the story of a town at the forefront of a devastating global shift—of a remarkable landscape sucked ever drier of moisture and becoming inhospitable even to trees, now dying in their tens of millions and turning to kindling. It is also the story of a lost community, one that epitomized a provincial, affordable kind of Californian existence that is increasingly unattainable. It is, finally, a story of a new kind of fire behavior that firefighters have never

witnessed before and barely know how to handle. What happened in Paradise was unprecedented in America. Yet according to climate scientists and fire experts, it will surely happen again.

According to Time magazine, Pakistan's President Pervez Musharraf holds "the world's most dangerous job." He has twice come within inches of assassination. His forces have caught more than 670 members of al Qaeda in the mountains and cities, yet many others remain at large and active, including Osama bin Laden and Ayman Al Zawahiri. Long locked in a deadly embrace with its nuclear neighbor India, Pakistan has come close to full-scale war on two occasions since it first exploded a nuclear bomb in 1998. As President Musharraf struggles for the security and political future of his nation, the stakes could not be higher for the world at large. It is unprecedented for a sitting head of state to write a memoir as revelatory, detailed, and gripping as *In the Line of Fire*. Here, for the first time, readers can get a firsthand view of the war on terror in its central theater. President Musharraf details the manhunts for Osama and Zawahiri and their top lieutenants, complete with harrowing cat-and-mouse games, informants, interceptions, and bloody firefights. He tells the stories of the near-miss assassination attempts, not only against himself but against Shaukat Aziz (later elected prime minister) and one of his top army officers (later the vice chief

of army staff), and of the abduction and beheading of Daniel Pearl -- as well as the forensic and shoe-leather investigations that uncovered the perpetrators. He details the army's mountain operations that have swept several valleys clean, and he talks about the areas of North Waziristan where al Qaeda is still operating. Yet the war on terror is just one of the many headline-making subjects in *In the Line of Fire*. The full story of the events that brought President Musharraf to power in 1999 is told for the first time. He reveals new details of the 1999 confrontation with India in Kashmir (the Kargil conflict) and offers a proposal for resolving the Kashmir dispute. He offers a portrait of Mullah Omar, with stories of Pakistan's attempts to negotiate with him. Concerning A. Q. Khan and his proliferation network, he explains what the government knew and when it knew it, and he reveals fascinating details of Khan's operations and the investigations into them. In addition, President Musharraf takes many stances that will make news. He calls for the Muslim world to recognize Israel once a viable Palestinian state is created. He urges the repeal of Pakistan's 1979 Hudood law. He calls for the emancipation of women and for their full political equality with men. He tells the sad story of Pakistan's experience with democracy and what he has done to make it workable.

men and a raging wildfire unfolds as a riveting, pulse-pounding account of an American tragedy; and also as a meditation on manhood, brotherhood and family love. The Fire Line is a great and deeply moving book about courageous men and women.” - Héctor Tobar, author of *Deep Down Dark: The Untold Stories of 33 Men Buried in a Chilean Mine and the Miracle that Set Them Free*. When a bolt of lightning ignited a hilltop in the sleepy town of Yarnell, Arizona, in June of 2013, setting off a blaze that would grow into one of the deadliest fires in American history, the twenty men who made up the Granite Mountain Hotshots sprang into action. An elite crew trained to combat the most challenging wildfires, the Granite Mountain Hotshots were a ragtag family, crisscrossing the American West and wherever else the fires took them. The Hotshots were loyal to one another and dedicated to the tough job they had. There's Eric Marsh, their devoted and demanding superintendent who turned his own personal demons into lessons he used to mold, train and guide his crew; Jesse Steed, their captain, a former Marine, a beast on the fire line and a family man who wasn't afraid to say “I love you” to the firemen he led; Andrew Ashcraft, a team leader still in his 20s who struggled to balance his love for his beautiful wife and four children and his passion for fighting wildfires. We see this band of brothers at work, at play and at home, until a fire that burned in

their own backyards leads to a national tragedy. Impeccably researched, drawing upon more than a hundred hours of interviews with the firefighters' families, colleagues, state and federal officials, and fire historians and researchers, New York Times Phoenix Bureau Chief Fernanda Santos has written a riveting, pulse-pounding narrative of an unthinkable disaster, a remarkable group of men and the raging wildfires that threaten our country's treasured wild lands.

In these wildly imaginative, devilishly daring tales of the macabre, internationally bestselling author Mariana Enriquez brings contemporary Argentina to vibrant life as a place where shocking inequality, violence, and corruption are the law of the land, while military dictatorship and legions of desaparecidos loom large in the collective memory. In these stories, reminiscent of Shirley Jackson and Julio Cortázar, three young friends distract themselves with drugs and pain in the midst a government-enforced blackout; a girl with nothing to lose steps into an abandoned house and never comes back out; to protest a viral form of domestic violence, a group of women set themselves on fire. But alongside the black magic and disturbing disappearances, these stories are fueled by compassion for the frightened and the lost, ultimately bringing these characters—mothers and daughters, husbands and wives—into a surprisingly familiar

Moved by previous visits to the Centralia, and ultimately by a trip to the now deserted town, which was bought out by the state following an unstoppable mine fire that began in 1962, the author was inspired to write a fitting eulogy. The novel is a fictional accounting based on fact and metaphorically presents the mine owners and industrialists as Satanical manifestations in need of exorcism. It is a wonderful mix of period fact with fiction - there is much to learn while enjoying a fanciful journey through the author's imagination. Sample from the book: "More water! More water damn it! The fire is spreading!" From behind a fire pumper a soot covered black-faced fireman came running and shouting. "Around the other side! Quickly!" Three more fire fighters joined in, sweat pouring from their brows in the 83 degree heat, made many times hotter by the raging fire, dragging limp cloth hose toward the quickly spreading fire that was reaching out in anger from the pit. "Charge the line," screamed a scrawny

teenage fireman. The hose they were carrying quickly filled and whipped along like a disturbed snake. The fire, in the pit of an old abandoned strip mine near the Odd Fellows cemetery was started once or twice a year to burn excess municipal rubbish, but had never gotten out of control, as did this one. This fire was started on May 27 to clean up rubbish and municipal waste in preparation for the Memorial Day celebration, and was then extinguished by the fire department and was thought to have gone out. It had again re-kindled on May 29 and was put out late in the evening. It again re-kindled on June 12, though not as bad. Now it had re-kindled yet again, this time with a vengeance, as if set by Satan himself. None of the locals had ever seen such an inferno.

Arizona's disastrous 2013 Yarnell Hill Fire, which took the lives of 19 "hotshots"--firefighters trained specifically to battle wildfires. Brendan McDonough was on the verge of becoming a hopeless, inveterate heroin addict when he, for the sake of his young daughter, decided to turn his life around. He enlisted in the Granite Mountain Hotshots, a team of elite firefighters based in Prescott, Arizona. Their leader, Eric Marsh, was in a desperate crunch after four hotshots left the unit, and perhaps seeing a glimmer of promise in the skinny would-be recruit, he took a chance on the unlikely McDonough, and the chance paid off. Despite the crew's skepticism, and thanks in large part to Marsh's firm but loving encouragement, McDonough unlocked a latent drive and dedication, going on to successfully battle a number of blazes and eventually win the confidence of the men he came to call his brothers. Then, on June 30, 2013, while McDonough--"Donut" as he'd been dubbed by his team--served as lookout, they confronted a freak, 3,000-degree inferno in nearby Yarnell, Arizona. The relentless firestorm ultimately trapped his hotshot brothers, tragically killing all 19 of them within minutes. Nationwide, it was the greatest loss of firefighter lives since the 9/11 attacks. Granite Mountain is a gripping memoir that traces McDonough's story of finding his way out of the dead end of drugs, finding his purpose among the Granite Mountain Hotshots, and the minute-by-minute account of the fateful day he lost the very men who had saved him. A harrowing and redemptive tale of resilience in the face of tragedy, Granite Mountain is also a powerful reminder of the heroism of the people who put themselves in harm's way to protect us every day.

hundred Spartan warriors faced the army of Xerxes. A dramatic, revelatory account of the female inmate firefighters who battle California wildfires. Shawna was overcome by the claustrophobia, the heat, the smoke, the fire, all just down the canyon and up the ravine. She was feeling the adrenaline, but also the terror of doing something for the first time. She knew how to run with a backpack; they had trained her physically. But that's not training for flames. That's not live fire. California's fire season gets hotter, longer, and more extreme every year — fire season is now year-round. Of the thousands of firefighters who battle California's blazes every year, roughly 30 percent of the on-the-ground wildland crews are inmates earning a dollar an hour. Approximately 200 of those firefighters are women serving on all-female crews. In *Breathing Fire*, Jaime Lowe expands on her revelatory work for *The New York Times Magazine*. She has spent years getting to know dozens of women who have participated in the fire camp program and spoken to captains, family and friends, correctional officers, and camp commanders. The result is a rare, illuminating look at how the fire camps actually operate — a story that encompasses California's underlying catastrophes of climate change, economic disparity, and historical injustice, but also draws on deeply personal histories, relationships, desires, frustrations, and the emotional and physical intensity of firefighting. Lowe's reporting is a groundbreaking investigation of the prison system, and an intimate portrayal of the women of California's Correctional Camps who put their lives on the line, while imprisoned, to save a state in peril.

Simcha Guterman's, *Leaves from Fire*, is a firsthand account written with the deep sense of comprehension he was documenting the fate of his people. Knowing full well that his life was in danger, Simcha chronicled the occurrences of the Holocaust on long scraps of paper, as they happened right before his eyes. The events described take place in Poland, during the first years of World War II. The author stuffed long paper scraps, written in Yiddish, into bottles and hid in them in different places. One of these bottles was discovered after the war. Simcha Guterman's work has been published and translated into eight different languages, receiving high praise from critics. The book's evocative illustrations were drawn by Yaakov Guterman, the author's son.

The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel.

Those of us who are waiting and watching for the imminent coming of the Lord JESUS CHRIST are constantly saying that the world will be on fire at His coming. We forget the fact that in many ways the world is on fire already. I believe we have in some way missed this point. This world of ours is on fire right now nationally. There is no great nation on earth that is fully at peace, not even our own United States of America. Think of the strikes, of the race problems, of the awful and many difficulties that beset us in our land. Multiply them by the tremendous burdens that are weighing down every other nation and you will see that I am justified in saying that the world is on fire. Think of England. Think of France. Think of Spain. Think of Germany and Japan. Think of the internal conflicts waging in Asia.

Mann Gulch, Montana, 1949. Sixteen men ventured into hell to fight a raging wildfire; only three came out alive. Searing the fire into the nation's consciousness, Norman Maclean chronicled the Mann Gulch tragedy in his award-winning book *Young Men and Fire*. Still, the silence of the victims' families robbed Maclean's account of an essential personal dimension. Shifting the focus from the fire to the men who fought it, Mark Matthews now provides that perspective. Not until 1999—the fiftieth anniversary of the fire—did people begin to talk openly about Mann Gulch. Matthews has garnered those thoughts to reveal how devastating the fire was to the firefighters' family members, coworkers, and friends. In retelling the story of Mann Gulch, he draws on the testimony of the three survivors—including never-before-published insights from the last living member of the team—and interviews with former smoke jumpers of that era. The result is a moment-by-moment, heart-stopping re-creation of events. The Mann Gulch

Twenty-five years after its first publication, *Young Men and Fire* is read avidly by students of literary nonfiction for its blend of hard-earned research, memoir, and an old man's wisdom. It tells one of the most infamous stories in the history of wildland firefighting: On August 5, 1949, a crew of fifteen of the United States Forest Service's elite airborne firefighters, the Smokejumpers, stepped into the sky above a remote forest fire in the Montana wilderness. On the ground, they were joined by a local fireguard. Two hours after the jump, all but three of the men were dead or mortally burned. For forty years, Maclean was haunted by these deaths. And for the last years of his life, he struggled to write a book that would put back together the scattered pieces of the Mann

Markus Stebbings is hiding terminal brain cancer, hoping to remain alive and a part of Delta long enough to die for something that matters. The mission to destroy a domestic terrorist cell in possession of a nuclear bomb sounds like the opportunity he is looking for, until he realizes that his targets are not terrorists, and that what they have is something infinitely more dangerous than a bomb. On the run with Grace and the device she calls Prometheus, Markus finds himself pitted against the full might of US intelligence and military forces as they mount the biggest manhunt ever conducted on American soil. He quickly learns that Prometheus represents a technological advancement so profound that it can alter the course of history. What he doesn't know is that there is another such device already in play, and that he, Grace and Prometheus are all that stand between it and the end of human civilization as we know it.

U.S. history, which killed nineteen elite firefighters of the Granite Mountain Hotshots and also inspired the major motion picture *Only the Brave*. “A tear-jerking classic.”—*Outside* • Named One of the Best Books of the Year by *Men’s Journal* On June 28, 2013, a single bolt of lightning sparked an inferno that devoured more than eight thousand acres in northern Arizona. Twenty elite firefighters—the Granite Mountain Hotshots—walked together into the Yarnell Hill Fire, tools in their hands and emergency fire shelters on their hips. Only one of them walked out. An award-winning journalist and former wildland firefighter, Kyle Dickman brings to the story a professional’s understanding of how wildfires ignite, how they spread, and how they are fought. He understands hotshots and their culture: the pain and glory of a rough and vital job, the brotherly bonds born of dangerous work. Drawing on dozens of interviews with officials, families of the fallen, and the lone survivor, he describes in vivid detail what it’s like to stand inside a raging fire—and shows how the increased population and decreased water supply of the American West guarantee that many more young men will step into harm’s way in the coming years. Praise for *On the Burning Edge* “Dickman weaves a century of fire-management history into the fully realized stories of the men’s lives—the sweat, the adrenaline, the orange glow of fire within their aluminum shelters, and the chewing gum that hotshot Scott Norris left in the shower before telling his girlfriend, Heather, ‘I’ll take care of it later. I promise.’”—*Outside* “Dickman offers a riveting account of a dangerous occupation and acts of nature most violent—and those
