WITH A NEW FOREWORD BY THE AUTHOR CHOSEN BY BILL GATES AS A BOOK OF THE YEAR 2016 Archie Brown challenges the widespread belief that 'strong leaders', dominant individual wielders of power, are the most successful and admirable. Within authoritarian regimes, a collective leadership is a lesser evil compared with a personal dictatorship. Within democracies, although 'strong leaders' are seldom as strong or independent as they purport to be, the idea that just one person is entitled to take the big decisions is harmful and should be resisted. Examining Franklin D. Roosevelt and Mikhail Gorbachev, Deng Xiaoping and Nelson Mandela, Margaret Thatcher and Tony Blair amongst many others, this landmark study pinpoints different types and qualities of leadership. Overturning the popular notion of the strong leader, it makes us rethink preconceptions about what it means to lead.

A chance encounter following a near-death experience sends Jack Valentine on a paradigm-shifting quest to understand the true meaning of life and find his most authentic self. Jack Valentine seemed to have it all. He made good money as an ad man and looked good doing it. He had a hot apartment, cool friends, even a slick car—at least until the hectic Monday morning a truck smashed into it, sending the critically injured Jack to the hospital. Everything happens for a reason, though, and Jack's reason reveals itself in the silver-haired cancer patient who becomes his roommate one evening. The elderly man, Cal, shares his life story—one not dissimilar to Jack's—of material wealth masking a gaping hole within. Cal ultimately found salvation through philosophy (“the love of wisdom”), and now offers to help Jack by prepping the younger man for the Final Questions we all must face: Have I lived wisely? Have I loved well? Have I served greatly? Presenting Jack with three plane tickets, each accompanied by a map marked with a red X, Cal sends Jack to meet with three great teachers, each of whom will help Jack answer one of the Final Questions—just as they once helped Cal. First, in Rome, Jack will meet “the Saint.” Then a haunted beach in Hawaii introduces him to “the Surfer.” And finally the grandeur of New York City sets the stage for his last encounter: with “the CEO.” Along the way, Jack will learn to do his interior work, discover that our negative traits offer gateways to higher versions of ourselves, and understand that figuring things out in your head can distract you from the powerful whispers of your heart. Join Jack on his journey and step into the you that you were always meant to be.

An internationally bestselling fable about a spiritual journey, littered with powerful life lessons that teach us how to abandon consumerism in order to embrace destiny, live life to the full and discover joy.

The key to success lies in getting to the top, right? Wrong. Not everyone can be in charge but, more importantly, not everyone should want to be. Richard Hytner, Deputy Chairman of Saatchi & Saatchi, thinks it's time to celebrate the second-in-commands, the consiglieri: from Merlin, to Al Gore, Rasputin to Machiavelli. These are the deputies, the Vice Presidents, the C-suite, the department heads - lieutenants, advisers, and counselors - whose influence determines the fate of boardrooms, corporations, and nations. While supremacy comes with drawbacks and influence, authority and power can be found in much more interesting places than the CEO's chair. *Consiglieri: Leading from The Shadows* brings together historical examples from Harry Hopkins to William Seward, conversations with contemporary second-in-commands like Tony Blair and Sir Alex Ferguson, and unique insights into Stalin, JFK, and Winnie the Pooh. A mirror for contemporary 'No. 2's' and a theoretical map for future consiglieri, the book traverses an array of powerful advisers from the White House to the Vatican, across international business, sports, and entertainment, as well as citing provocative research from psychology and academia.

Few leadership titles have been written on the lives of women. Alan Axelrod, noted historian and business management expert, reveals how Elizabeth I overcame daunting obstacles to win intense loyalty and lead England to greatness. The queen's long reign offers lessons on: developing a leadership attitude and image enhanced by personal dynamism; becoming an effective coach and mentor skilled at nurturing creativity; manipulating others--subtly and ethically--and knowing and anticipating the "enemy." How did Elizabeth meet the challenges that faced her, managing not only to stay alive and keep her imperiled nation afloat, but also to win the intense loyalty of her people and lead England to greatness? Historians and biographers have offered many explanations. *Elizabeth I, CEO* takes a fresh view, exploring issues that are relevant to leaders--especially business leaders--of today.

In the groundbreaking national bestseller *The Monk Who Sold His Ferrari*, internationally respected author and speaker Robin S. Sharma showed us a powerful way to dramatically improve the quality of our personal and professional lives based on timeless

His job is unsatisfying, and he is disenchanted with the world around him. One day, an enigmatic family friend offers him a life-altering opportunity: spend a day studying with a mysterious group of teachers and learn the secrets of limitless success. Blake is sceptical, but something compels him to take the opportunity seriously. The next morning, he embarks on a journey to discover the true meaning of the LWT philosophy - Lead Without a Title. He is ushered through the lessons of the four teachers: Anna, a maid who shows him that every job can be done with passion; Ty, a surfer who reminds him how important it is to rise to the riskiest challenges; Jackson, a former CEO who shows him the value of relationships; and Jet, a masseur who proves that greatness begins within. Blake's world changes as the teachers make him realize his own potential to achieve greater things than he'd ever imagined. The book is packed with real-world lessons, catchy aphorisms and inspiring exercises that will help any business person realize extraordinary results. Sharma distils over fifteen years of working with high-performers to deliver real-world strategies and foster a winning mindset. Here are formulas that will build success amidst times of deep change and will help readers to make positive changes both at work and at home.

Shakespeare's intertwined love polygons begin to get complicated from the start—Demetrius and Lysander both want Hermia but she only has eyes for Lysander. Bad news is, Hermia's father wants Demetrius for a son-in-law. On the outside is Helena, whose unreturned love burns hot for Demetrius. Hermia and Lysander plan to flee from the city under cover of darkness but are pursued by an enraged Demetrius (who is himself pursued by an enraptured Helena). In the forest, unbeknownst to the mortals, Oberon and Titania (King and Queen of the faeries) are having a spat over a servant boy. The plot twists up when Oberon's head mischief-maker, Puck, runs loose with a flower which causes people to fall in love with the first thing they see upon waking. Throw in a group of labourers preparing a play for the Duke's wedding (one of whom is given a donkey's head and Titania for a lover by Puck) and the complications become fantastically funny.

Like his megaselling *The Monk Who Sold His Ferrari*—the book that started it all—*Discover Your Destiny with The Monk Who Sold His Ferrari* delivers another life-changing fable to help readers see the world through a completely new set of eyes. This latest guide offers more of the inspiring but highly practical wisdom of the now famous Julian Mantle, the superstar lawyer who traded his jet-set lifestyle and prized Ferrari for enlightenment and fulfillment. Readers will learn the true purpose of their lives, how to unlock their highest potential, the secret of boundless joy and a direct route to personal freedom. A must-read for all Monk fans.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

The #1 New York Times bestselling author of *Never Eat Alone* redefines collaboration with a radical new workplace operating system in which leadership no longer demands an office, an official title, or even a physical workplace. "An actionable methodology for any team to thrive during the decade of exponential change ahead."—Peter H. Diamandis, founder of XPRIZE and Singularity University, bestselling co-author of *Abundance*, *Bold*, and *The Future Is Faster Than You Think* In times of stress, we have a choice: we can retreat further into our isolated silos, or we can commit to "going higher together." When external pressures are mounting, and employees are working from far-flung locations across the globe, says bestselling author Keith Ferrazzi, we can no longer afford to waste time navigating the complex chains of command or bureaucratic bottlenecks present in most companies. But when we choose the bold new methodology of co-elevation as our operating model, we unlock the potential to boost productivity, deepen commitment and engagement, and create a level of trust, mutual

accountability, and purpose that exceeds what could have been accomplished under the status quo. And you don't need any formal authority to do it. You simply have to marshal a commitment to a shared mission and care about the success and development of others as much as you care about your own. Regardless of your title, position, or where or how you work, the ability to lead without authority is an essential workplace competency. Here, Ferrazzi draws on over a decade of research and over thirty years helping CEOs and senior leaders drive innovation and build high-performing teams to show how we can all turn our colleagues and partners into teammates and truly reboot the way we work together.

You aspire to lead with greater impact. The problem is you're busy executing on today's demands. You know you have to carve out time from your day job to build your leadership skills, but it's easy to let immediate problems and old mind-sets get in the way. Herminia Ibarra—an expert on professional leadership and development and a renowned professor at INSEAD, a leading international business school—shows how managers and executives at all levels can step up to leadership by making small but crucial changes in their jobs, their networks, and themselves. In *Act Like a Leader, Think Like a Leader*, she offers advice to help you:

- Redefine your job in order to make more strategic contributions
- Diversify your network so that you connect to, and learn from, a bigger range of stakeholders
- Become more playful with your self-concept, allowing your familiar—and possibly outdated—leadership style to evolve

Ibarra turns the usual “think first and then act” philosophy on its head by arguing that doing these three things will help you learn through action and will increase what she calls your *outsight*—the valuable external perspective you gain from direct experiences and experimentation. As opposed to *insight*, *outsight* will then help change the way you think as a leader: about what kind of work is important; how you should invest your time; why and which relationships matter in informing and supporting your leadership; and, ultimately, who you want to become. Packed with self-assessments and practical advice to help define your most pressing leadership challenges, this book will help you devise a plan of action to become a better leader and move your career to the next level. It's time to learn by doing.

Seven Steps to Leading Your Best Life This deeply engaging story is filled with powerful and practical life lessons that will open you to new possibilities and transform your life forever.

From The Monk Who Sold His Ferrari author comes an inspiring parable about the skills needed to excel in career and life.

The definitive work on Stalin's purges, the author's *The Great Terror* was universally acclaimed when it first appeared in 1968. It was "hailed as the only scrupulous, nonpartisan, and adequate book on the subject". And in recent years it has received equally high praise in the Soviet Union, where it is now considered the authority on the period, and has been serialized in *Neva*, one of their leading periodicals. Of course, when the author wrote the original volume two decades ago, he relied heavily on unofficial sources. Now, with the advent of *glasnost*, an avalanche of new material is available, and he has mined this enormous cache to write a substantially new edition of his classic work. It is remarkable how many of the most disturbing conclusions have borne up under the light of fresh evidence. But the author has added enormously to the detail, including hitherto secret information on the three great "Moscow Trials," on the fate of the executed generals, on the methods of obtaining confessions, on the purge of writers and other members of the intelligentsia, on life

in the labor camps, and many other key matters. Both a leading Sovietologist and a highly respected poet, the author blends research with prose, providing not only an authoritative account of Stalin's purges, but also a compelling chronicle of one of this century's most tragic events. A timely revision of a book long out of print, this is the updated version of the author's original work.

Do you want to find the inspiration, passion and enthusiasm to become extraordinary? Robin Sharma, author of no.1 international bestseller *The Monk Who Sold His Ferrari*, will excite, energize and elevate you to world class greatness with his remarkable insights and powerful tools.

The Leader Who Had No Title A Modern Fable on Real Success in Business and in *Simon and Schuster*

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, *THE COMMANDING HEIGHTS* shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

When the going gets tough, the tough start changing. Difficult times call for different solutions. In his global bestseller, *Legacy*, James Kerr goes deep into the heart of the world's most successful team, the New Zealand All Blacks, to help understand what it takes to bounce back from adversity and still reach the top. It is a book about leading a team or an organisation - but, more importantly, about leading a life. The kind of life that you want to lead. In today's volatile, uncertain, complex and ambiguous environment, personal leadership has never been more relevant and *Legacy* goes to the heart of how great leaders - and we are all leaders - 'reboot' and reframe their future. It is a truly life-defining read that addresses the big questions - values, vision, mindset and purpose - that, when answered, build the foundation for resilience, excellence and sustained success. This book will change your life. Champions do extra. They sweep the sheds, follow the spearhead, and keep a blue head. They are good ancestors and plant trees they'll never see.

Why do smart and experienced leaders make flawed, even catastrophic, decisions? Why do people keep believing they have made the right choice, even with the disastrous result staring them in the face? And how can you be sure you're

making the right decision--without the benefit of hindsight? Sydney Finkelstein, Jo Whitehead, and Andrew Campbell show how the usually beneficial processes of the human mind can become traps when we face big decisions. The authors show how the shortcuts our brains have learned to take over millennia of evolution can derail our decision making. Think Again offers a powerful model for making better decisions, describing the key red flags to watch for and detailing the decision-making safeguards we need. Using examples from business, politics, and history, Think Again deconstructs bad decisions, as they unfolded in real time, to show how you can avoid the same fate.

Why are some people and organizations more inventive, pioneering and successful than others? And why are they able to repeat their success again and again? Because in business it doesn't matter what you do, it matters why you do it. Steve Jobs, the Wright brothers and Martin Luther King have one thing in common: they STARTED WITH WHY. This book is for anyone who wants to inspire others, or to be inspired. Based on the most-watched TED Talk of all time. 'One of the most useful and powerful books I have read in years' William Ury, coauthor of Getting to Yes 'This book is so impactful, I consider it required reading' Tony Robbins, bestselling author of Awaken The Giant Within
