

The Little Engine That Could An Abridged Edition

All the many things a young child can do independently are demonstrated, (tying shoes, riding bike, kicking ball), but there is one thing one cannot do alone.

Applause! Applause! And wasn't it easy? Even teachers with no formal musical training will love this simple musical play. Children will bring The Little Engine That Could story to life through drama, music, art, language, math, and gross motor activities. Included are a Listening/Accompaniment CD and a resource guide loaded with songs, music, and step-by-step directions for classroom use or performance. 32 pages + Listening/Accompaniment CD

As the little blue engine chugs along on a journey of discovery, objects corresponding to each letter of the alphabet are encountered under twenty-six different lift-up flaps.

"I think I can learn my ABCs, " says the little blue engine! Kids can learn them, too, in this colorful introduction to the alphabet, featuring familiar objects from a child's world.

The enthralling Sunday Times-bestselling biography of the shepherd boy who changed the world with his revolutionary engineering and whose genius we still benefit from today Thomas Telford's name is familiar; his story less so. Born in 1757 in the Scottish Borders, his father died in his infancy, plunging the family into poverty. Telford's life soared to span almost eight decades of gloriously obsessive, prodigiously productive energy. Few people have done more to shape our nation. A stonemason turned architect turned engineer, Telford invented the modern road, built churches, harbours, canals, docks, the famously vertiginous Pontcysyllte aqueduct in Wales and the dramatic Menai Bridge. His constructions were the greatest in Europe for a thousand years, and - astonishingly - almost everything he ever built remains in use today. Intimate, expansive and drawing on contemporary accounts, Man of Iron is the first full modern biography of Telford. It is a book of roads and landscapes, waterways and bridges, but above all, of how one man transformed himself into the greatest engineer Britain has ever produced.

Celebrate Easter with The Little Blue Engine in this original early reader, as she and her friends go on an Easter Egg hunt! Easter's here, and The Little Blue Engine is on the hunt for eggs! But the clown has written a series of riddles for her to follow, and she's not sure she'll be able to solve them all. Will she crack the code? She'll have to work together with her friends and, most importantly, believe in herself! With simple text, clever riddles, and adorable illustrations, this story is perfect for emerging readers and longtime fans of the beloved classic.

Although she is not very big, the Little Blue Engine agrees to try to pull a stranded train full of toys over the mountain. On board pages.

All aboard! This book is the perfect gift to say thanks: for the big things, the small things, and everything else along the way. This special gift book, complete with beautiful illustrations and timeless messages of thanks and appreciation, is the perfect way to tell a loved one: "Thank you." Show your teachers and all the special people in your life how much you appreciate them in this colorful book of thanks featuring The Little Engine That Could.

A gorgeously illustrated, modern retelling of the classic The Little Engine That Could, sharing the timely message that everyone's journey is different, and that sometimes, success comes from a helping hand. Graduation day is finally here! The Little Blue Engine, the Yellow Passenger Engine, and the Red Freight Engine are excited to take their final test of Engine School: making their first solo trip over the mountain. But each engine encounters different challenges and obstacles on their journey. Gorgeous illustrations by Lou Fancher and Steve Johnson combine with a poignant story told by Bob McKinnon to remind a new generation of readers to "think they can."

Updated to incorporate the latest features, tools, and functions of the new version of the popular word processing software, a detailed manual explains all the basics, as well as how to create sophisticated page layouts, insert forms and tables, use graphics, and create book-length documents with outlines and Master Documents. Original. (All Users)

High school and the difficult terrain of sexuality and gender identity are brilliantly explored in this smart, incisive ethnography. Based on eighteen months of fieldwork in a racially diverse working-class high school, Dude, You're a Fag sheds new light on masculinity both as a field of meaning and as a set of social practices. C. J. Pascoe's unorthodox approach analyzes masculinity as not only a gendered process but also a sexual one. She demonstrates how the "specter of the fag" becomes a disciplinary mechanism for regulating heterosexual as well as homosexual boys and how the "fag discourse" is as much tied to gender as it is to sexuality.

When the other engines refuse, the Little Blue Engine tries to pull a stranded train full of dolls, toys, and good food over the mountain.

Celebrate graduation and achievements big or small with The Little Engine That Could! The determined Little Blue Engine is back, bringing inspiring and enlightening words of wisdom to graduates of all ages as they make the transition from one phase of life to the next. I Knew You Could! provides familiar comfort in changing times and serves as a wonderful gift that will be treasured for years to come. Readers will revisit the story again and again as they move forward along life's path. From "I think I can" to "I knew I could," The Little Engine That Could helps kids of all ages realize that anything is possible if you just put your mind to it!

* "Isadora's book about the five senses is aimed perfectly at another sense—kids' sense of humor."—The Horn Book, starred review Caldecott Honor winner Rachel Isadora's sweet and simple introduction to the five senses is perfect for the youngest children, who will recognize themselves in charming vignettes portraying a wide range of childhood activities. Hearing, smelling, seeing, touching, tasting--our five senses allow us to experience the world in so many ways! With our ears we hear the birds sing; with our nose we smell the stinky cheese; with our eyes we see the moon and stars (and sometimes glasses help us see even better!); with our skin we feel the rain (and learn not to touch the hot stove!); and with our tongue we can taste our favorite foods. Isadora's lively art reveals the power and delight of each sense. The special anniversary edition of The Little Engine That Could™ contains the entire text and original artwork. Young readers, as well as parents and grandparents, will treasure the story of the blue locomotive who exemplifies the power of positive thinking.

This unique paint book lets youngsters paint with The Little Engine That Could and her best friends. With just a touch of water, colors magically appear on the page. Includes paintbrush. Illustrations. Consumable.

'A masterpiece... this book will teach you what to look out for, how to balance your running so that you achieve the best "you" possible.' Paul-Sinton Hewitt CBE, parkrun founder A smart and refreshingly brilliant running book designed for the all-too-often overlooked middle-of-the-pack runner, written by Marathon Talk's Martin Yelling and Anji Andrews. Welcome to the midpack! Running pushes us, stretches us, asks us difficult questions, challenges us. It gives us space, calms us down, picks us up, boosts our energy, rewards, inspires and fulfils us. Midpack runners – those who fall between the beginners and the elite – are the heartbeat and footsteps of the running community. In this long-overdue book, Marathon Talk's Martin Yelling and Anji Andrews share their expert knowledge, first-person stories and coaching ideas to nourish the midpackers' running experience. Covering such diverse topics as 'Making Yourself Bullet-proof' and 'How to Nail Your Race', Running in the Midpack will cultivate your running progress, and help you to become a healthy, happy and successful runner. Marathon Talk is the UK's number one running podcast.

Although he is not very big, the Little Blue Engine agrees to try to pull a stranded train full of toys over the mountain.

The classic character that has inspired generations of children to believe in themselves will now inspire readers of every age in this book filled with encouraging words of wisdom. Everybody needs a little downtime for maintenance. There will always be obstacles you don't anticipate. Wake up ready for an adventure. Ride along to school with the #1 New York Times best-selling Little Blue Truck and meet Blue's new friend: a bright yellow school bus. Beep-beep! Little Blue Truck and his good friend Toad are excited to meet a bright yellow school bus on the road. They see all the little animals lined up in the school bus's many windows, and Blue wishes he could be a school bus too. What a fun job--but much too big for a little pickup like Blue. Or is it? When somebody misses the bus, it's up to Blue to get his friend to school on time. Beep! Beep! Vroom! Also enjoy Blue's bedtime ride in Good Night, Little Blue Truck and his trip to the city in Little Blue Truck Leads the Way.

In this Caldecott Honor-winning picture book, The Twilight Zone comes to the carrot patch as a rabbit fears his favorite treats are out to get him. Includes audio! Jasper Rabbit loves carrots—especially Crackenhopper Field carrots. He eats them on the way to school. He eats them going to Little League. He eats them walking home. Until the day the carrots start following him...or are they? Celebrated artist Peter Brown's stylish illustrations pair perfectly with Aaron Reynold's text in this hilarious picture book that shows it's all fun and games...until you get too greedy.

When the other engines refuse, the Little Blue Engine tries to pull a stranded train full of toys and good food over the mountain. When Santa's reindeer get sick, the Little Engine That Could saves Christmas.

The 90th anniversary celebrations continue with this charming original title featuring everyone's favorite little train is the perfect book for bedtime. The train yard's still. There's not a sound. The setting sun glows all around. After a day of play, Little Engine settles in to sleep . . . but when she hears a noise outside, she goes on a midnight ride, finding a certain someone who needs her help. Say "Good night" to Little Engine in this beautiful, rhyming picture book perfect for little ones at bedtime.

Based on the original story by Watty Piper, this book includes 7 of the Most Popular The Little Engine that Could Stories.

A look at how new technologies can be put to use in the creation of a more just society. Artificial Intelligence (AI) is not likely to make humans redundant. Nor will it create superintelligence anytime soon. But it will make huge advances in the next two decades, revolutionize medicine, entertainment, and transport, transform jobs and markets, and vastly increase the amount of information that governments and companies have about individuals. AI for Good leads off with economist and best-selling author Daron Acemoglu, who argues that there are reasons to be concerned about these developments. AI research today pays too much attention to the technological hurdles ahead without enough attention to its disruptive effects on the fabric of society: displacing workers while failing to create new opportunities for them and threatening to undermine democratic governance itself. But the direction of AI development is not preordained. Acemoglu argues for its potential to create shared prosperity and bolster democratic freedoms. But directing it to that task will take great effort: It will require new funding and regulation, new norms and priorities for developers themselves, and regulations over new technologies and their applications. At the intersection of technology and economic justice, this book will bring together experts--economists, legal scholars, policy makers, and developers--to debate these challenges and consider what steps tech companies can do take to ensure the advancement of AI does not further diminish economic prospects of the most vulnerable groups of population.
