Should we pay children to read books or to get good grades? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars, outsourcing inmates to for-profit prisons, auctioning admission to elite universities, or selling citizenship to immigrants willing to pay? Isn't there something wrong with a world in which everything is for sale? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. In *What Money Can't Buy*, Sandel examines one of the biggest ethical questions of our time and provokes a debate that's been missing in our market-driven age: What is the proper role of markets in a democratic society, and how can we protect the moral and civic goods that markets do not honour and money cannot

Written more than a century ago-The Richest Man In Babylon-is one of the greatest financial books of all time. In language as simple as that of the Bible, this book provides many timeless lessons about spending, saving, and investing to build wealth that are as applicable today as when it was first written. The book is set in ancient Babylon, and follows the story of Arkad, the richest man in all of Babylon, imparting his wisdom to a younger man, Bansir, who wishes to become wealthy. It lays out the basics of personal finance - spend less than you earn, save 10% of your income, and invest wisely - in an engaging parable format (stories told to teach a lesson). The book teaches that if you follows these basic lessons, work hard, and continue improving your skills, you can build future wealth through passive streams of income.

"In the summer of 2013, Moral Mondays gained national attention as tens of thousands of citizens protested the extreme makeover of North Carolina's state government and over a thousand people were arrested in the largest mass civil disobedience movement since the lunch counter sit-ins of 1960. Every Monday for 13 weeks, Rev. Dr. William J. Barber led a revival meeting on the state house lawn that brought together educators and the unemployed, civil rights and labor activists, young and old, documented and undocumented, gay and straight, black, white and brown. News reporters asked what

had happened in state politics to elicit such a spontaneous outcry. But most coverage missed the seven years of coalition building and organizing work that led up to Moral Mondays and held forth a vision for America that would sustain the movement far beyond a mass mobilization in one state. A New Reconstruction is Rev. Barber's memoir of the Forward Together Moral Movement, which began seven years before Moral Mondays and extends far beyond the mass mobilizations of 2013. Drawing on decades of experience in the Southern freedom struggle, Rev. Barber explains how Moral Mondays were not simply a reaction to corporately sponsored extremism that aims to re-make America through state legislatures. Moral Mondays were, instead, a tactical escalation in the Forward Together Moral Movement to draw attention to the anti-democratic forces bent on serving special interests to the detriment of the common good"--

Is there a book of the Bible more often discussed and yet less understood than the Book of Revelation? The "seven seals." The "dragon." The "beast." The "sea of glass." The fantastic imagery found in the Book of Revelation has long captivated Christians but remains mysterious to many. In the midst of so much discussion about the end times, what does Revelation teach us about living in the present moment, with our eyes focused on the heavenly Jerusalem? Michael Barber's *Coming Soon* explores these questions by taking a detailed look at Revelation and its rich tapestry of prophecy, history, and biblical allusion. Barber explores the profound link between the Mass celebrated here on earth and the eternal reality of heaven, demonstrating that the Apocalypse reveals truth that has practical implications for today and points to a firm hope in tomorrow. *Coming Soon* is a verse-by-verse commentary on the Book of Revelation using the Revised Standard Version: Catholic Edition of the Bible. Barber provides a Catholic interpretation, which sees the liturgical background of this book of Scripture—a perspective missing in many Protestant commentaries. The bestselling author of *The Millionaire Next Door* reveals easy ways to build real wealth. With well over two million of his books sold, and huge praise from many media outlets, Dr. Thomas J. Are you nervously biting your nails? In The Rule of 30 personal finance expert Frederick Vettese provides a surprising — and hopeful — answer. Through conversations between a young couple and their neighbor, a retired actuary, the couple and the reader discover:

- How they would have fared had they been saving over various periods in the past, and how the future investment climate will differ

- The Rule of 30 and why it is a more rational way to save
- Whether investing in real estate is a viable alternative to investing in stocks

There has always been some gap between rich and poor, but it has never been wider - and now the rich are getting wealthier at such breakneck speed that the middle classes are being squeezed out.
