Tami Longaberger is CEO of The Longaberger Company, the premier U.S. manufacturer of handcrafted baskets and other home and lifestyle products. With great tenderness, transparency, and candor, this book opens her heart, offering readers a glimpse of her unique “American Dream”—the kind not handed down or given freely—but earned by hard work and fierce tenacity. Whether sharing memories of her impoverished childhood in Appalachia or accounts of reaching out to business women of the Middle East, Longaberger evokes a balanced nostalgia for the sweetness of the past comingled with a passionate call for hope for the future. Weaving Dreams prompts readers to dream bigger, think more broadly, and risk taking the road less traveled in business and in life. The life lessons remind us that we are all much more similar than distinct, that we have much for which to be grateful, and that the love of family is a treasure to be valued above all else. In Weaving Dreams: The Joy of Work, the Love of Life, Tami Longaberger emerges as a clear voice of encouragement and inspiration, challenging us all to live each moment to the fullest.

"Animals dream about the things they do in the daytime just like people do. If you want sweet dreams, you've got to live a sweet life." So says Loyd Peregrina, a handsome Apache trainman and latter-day philosopher. But when Codi Noline returns to her hometown, Loyd's advice is painfully out of her reach. Dreamless and at the end of her rope, Codi comes back to Grace, Arizona, to confront her past and face her ailing, distant father. What she finds is a town threatened by a silent environmental catastrophe, some startling clues to her own identity, and a man whose view of the world could change the course of her life. Blending flashbacks, dreams, and Native American legends, *Animal Dreams* is a suspenseful love story and a moving exploration of life's largest commitments.

Weaving is a highly accessible craft — over, under is the basic technique — but the stumbling block for many would-be weavers has been the high cost of a commercial loom. The Weaving Explorer removes that barrier, inviting crafters and artists to try out an amazing range of techniques and creative projects that are achievable with a simple homemade loom, or no loom at all! Weavers Deborah Jarchow and Gwen W. Steege take inspiration from the world of folk weaving traditions, adding a contemporary spin by introducing an unexpected range of materials and home dec projects. From sturdy rag fabric grocery bags to freeform wire baskets, delicately woven thread bracelets to colorful woven rugs, crafters will delight in exploring the opportunities to make their own personal variations on these beautiful — and functional — creations.

OBSERVER 'A moving and powerful memoir.' THE BRITISH BLACK LIST 'Both personal and political, weaving tales of his own life with advice for other young people and a call for everyone to do their part in creating an equal society ... Emmanuel is a great communicator; he writes and speaks with confidence. It's easy to see how, from such a young age, he has been able to engage people on the issues he wants to tackle.' EVENING STANDARD _____ I wanted to change the world, but the world I was born into changed me first. My name is Jeremiah Emmanuel. I'm twenty one years old. I'm an activist, an entrepreneur, a former deputy young mayor of Lambeth and member of the UK Youth Parliament. Raised in south London, I lived in an area where crime and poverty were everywhere and opportunities to escape were rare. Violence was accepted, prison was expected. That was the world I knew; the only one I thought was possible for people like me. Then I discovered another world, one

with opportunities round every corner. As I grew my network, I realised that the system actively works against certain members of society, silently preventing people from succeeding. I made it my mission to change this, and to teach people like me about the secret rules of society that empower some to get ahead and keep others down. This is my story of how I made it, and how others can too. Memoir meets manifesto, *Dreaming in a Nightmare* is a powerful account of the challenges faced by a new generation and how readers can rally to create change.

Since the split between Freud and Jung, psychoanalysis and analytical psychology have largely developed in an atmosphere of mutual disregard. Only in recent years have both discourses shown signs of an increasing willingness to engage. *Re-Encountering Jung: Analytical Psychology and Contemporary Psychoanalysis* is the first edited volume devoted to a reconciliation between these two fields. The contributors explore how Jungian thinking influences, challenges, and is challenged by recent developments in the psychoanalytic mainstream. In examining the nature of the split, figures from both sides of the conversation seek to establish lines of contrast and commonality so as to reflect an underlying belief in the

value of reciprocal engagement. Each of the chapters in this collection engages the relationship between Jungian and psychoanalytic thinking with the intention of showing how both lines of discourse might have something to gain from attending more to the voice of the other. While several of the contributing authors offer new perceptions on historical concerns, the main thrust of the collection is in exploring contemporary debates. Re-Encountering Jung reflects a unique undertaking to address one of the longest-standing and most significant rifts in the history of depth psychology. It will be of great interest to all academics, students and clinicians working within the fields of psychoanalysis and analytical psychology.

Artemidorus' *Oneirocritica* ('The Interpretation of Dreams') is the only dream-book which has been preserved from Graeco-Roman antiquity. Composed around AD 200, it comprises a treatise and manual on dreams, their classification, and the various analytical tools which should be applied to their interpretation, making Artemidorus both one of the earliest documented and arguably the single most important predecessor and precursor of Freud. Artemidorus travelled widely through Greece, Asia, and Italy to collect people's dreams and record their outcomes, in the process casting a vivid light on social mores and religious beliefs in the Severan age: this volume, published as a companion to the new translation of *The Interpretation of Dreams* by Martin Hammond in the Oxford World's Classics series, aims to provide the non-specialist reader with a readable and engaging road-map to this vast and complex text. It offers a detailed analysis of Artemidorus' theory of dreams and the social function of ancient dream-interpretation, while also aiming to foster an understanding of the ways in which Artemidorus might be of interest to the cultural or social historian of the Graeco-Roman world. Alongside chapters on Artemidorus' life, career, and world-view, it also provides valuable insights into his conceptions of the human body, sexuality, the natural world, and the gods; his attitudes towards Rome, the contemporary Greek polis, and the social order; and his knowledge of Greek literature, myth, and history. In addition, its accessible exploration of the differences and similarities between ancient traditions of dream-analysis and modern

Randol Contreras came of age in the South Bronx during the 1980s, a time when the community was devastated by cuts in social services, a rise in arson and abandonment, and the rise of crack-cocaine. For this riveting book, he returns to the South Bronx with a sociological eye and provides an unprecedented insider's look at the workings of a group of Dominican drug robbers. Known on the streets as "Stickup Kids," these men raided and brutally tortured drug dealers storing large amounts of heroin, cocaine, marijuana, and cash. As a participant observer, Randol Contreras offers both a personal and theoretical account for the rise of the Stickup Kids and their violence. He mainly focuses on the lives of neighborhood friends, who went from being crack dealers to drug robbers once their lucrative crack market opportunities disappeared. The result is a stunning, vivid, on-the-ground ethnographic description of a drug robbery's violence, the drug market high life, the criminal life course, and the eventual pain and suffering experienced by the casualties of the Crack Era. Provocative and eye-opening, *The Stickup Kids* urges us to explore the ravages of the drug trade through weaving history, biography, social structure, and drug market forces. It offers a revelatory explanation for drug market violence by masterfully uncovering the hidden social forces that produce violent and self-destructive individuals. Part memoir, part penetrating analysis, this book is engaging, personal, deeply informed, and entirely absorbing.

Greg Sarris weaves together stories from Mabel McKay's life with an account of

how he tried, and she resisted, telling her story straight--the white people's way. Sarris, an Indian of mixed-blood heritage, finds his own story in his search for Mabel McKay's. Beautifully narrated, *Weaving the Dream* initiates the reader into Pomo culture and demonstrates how a woman who worked most of her life in a cannery could become a great healer and an artist whose baskets were collected by the Smithsonian. Hearing Mabel McKay's life story, we see that distinctions between material and spiritual and between mundane and magical disappear. What remains is a timeless way of healing, of making art, and of being in the world. Sarris's new preface, written expressly for this edition, meditates on Mabel McKay's enduring legacy and the continued importance of her teachings.
