By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

must give way to the priority of God if we want to experience His joy. In this popular book, Alistair identifies ten benchmarks from Scripture that will prove invaluable as you seek to live a life that is pleasing to God. His clear, personal message will challenge and revitalize your faith. Spiritual fitness is not a series of straight, 100-yard sprints. Rather, it's a lifelong cross-country run of endurance and perseverance. The life that is truly fulfilling gives back to God the talents and abilities He has given us to be used for His glory. "Delightful, insightful teaching on God's Word" — Max Lucado "Alistair compels us clearly and biblically to know the joy of pleasing God in our relationships, successes and failures, and other strategic aspects of our lives." — Joseph M. Boeing 747 and Concorde appeared in the skies in the late 1960s. Designed to challenge Boeing's monopoly in the large-aircraft market, it made its first flight in April 2005, entering commercial service two years later with Singapore Airlines. This jet has become so popular that every four minutes--24 hours a day, seven days a week--an A380 is taking off or landing somewhere in the world. There is no other development in recent aviation history to rival this remarkable aircraft.

After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. This is why so many do-it-yourself restorers outsource the work, at considerable expense, to an experienced upholstery shop. Taking the time to acquire the skills for upholstery restoration may feel like a daunting task, but what if an experienced upholsterer presented every skill you needed to restore upholstery yourself? Starting with a list of necessary tools, author Fred Mattson guides you through all the required tasks, including seat restoration; door panel removal, patterning, assembly, and installation; headliner removal and installation; carpet cutting; and even convertible top restoration. The easy-to-follow step-by-step presentation allows for a thorough understanding of all the processes. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show-quality specifications. Other restoration books may show you beautifully restored interiors, but they don't show you how to produce them. This book helps you develop the skills needed with instruction from a professional upholsterer, saving you thousands of dollars over outsourcing the restoration. If you are interested in saving money, doing a

The No 1 bestselling cookery book in Ireland - for two years running! 'These lovely boys always create incredibly tasty food.' Jamie Oliver Let's face it: while we want to eat more fruit and veg and things we know are good for us, we sometimes fall short because we're not sure how to turn all that great produce into great food. Well, welcome to the Happy Pear way of eating - healthy but never worthy, easy but never dull, and packed with mind-blowing flavour, exciting texture and vibrant colour. The Happy Pear opened ten years ago when twins David and Stephen Flynn, passionate about starting a food revolution in their home town, took over their local fruit and veg shop and later opened a café. Their revolution has not only succeeded, but it is spreading, and The Happy Pear's fans range from young parents to pensioners, ladies-who-lunch to teens-on-the-run, hipsters to Hollywood stars. David and Stephen's first cookbook is full of irresistible recipes for everything from everyday breakfasts, lunches and dinners, to scrumptious - and yes, still wholesome! - cakes and sweet treats, to special occasion splurges. David and Stephen also tell their story (how they transformed from jocks to hippies before finally finding their groove), share their top tips for maximizing taste and goodness in food, and explain how they've succeeded in building a food business based on flavour, health and community. 'The poster boys for a healthy way of life' Sunday Times 'Proper good food ... hearty, decent and delicious' Russell Brand 'I love The Happy Pear ... genuinely good food that brings healthy eating in from the cold' Irish Times 'My favourite [vegetarian cookbook] ... packed with recipes, health advice and inspirational stories.' Go on a 60-year ride with Harley-Davidson's Sportster Things got a little weird in the American motorcycle industry after World War II. People hungered for new motorcycles, buying just about everything manufacturers could build. But on rare occasions a manufacturer produced a machine that nobody wanted. Such was the case with the Harley-Davidson Model K. The Model K had most of the features buyers wanted in a modern machine, like hand-operated clutches, foot-

operated shifters, and cool-running aluminum heads, but it lacked perhaps the most important technological upgrade: a modern overhead-valve valve-train design. The Model K retained the antiquated side-valve design because of arcane AMA racing rules written when Harley-Davidson and Indian competed head-to-head on American racetracks, but by 1952 Indian was on its last legs. This should have made the Model K a massive sales success. What nobody counted on was the British bike invasion. Thanks to their modern overhead-valve engines, the lightweight British bikes humiliated the side-valve Harleys on the track and on the street. Upgrades to the Model K didn't help; Harley finally relented and introduced a new overhead-valve middleweight for the 1957 model year. Dubbed the Sportster, it was everything the Model K was not. More importantly, it was faster than the British competition. Thus began the Sportster's sixty-year reign. Harley-Davidson Sportster: Sixty Years tells the complete Sportster story. Noted Sportster expert Allen Girdler covers all the bikes--the XLCH, Caf_ Racer, XR1000, XLX, 883, Iron, Forty-Eight, Seventy-Two, and Nightster--that have made the Sportster one of the most iconic motorcycles on earth.

In 1982, at the age of just twenty-three and halfway through her architecture studies, Elspeth Beard left her family and friends in London and set off on a

35,000-mile solo adventure around the world on her 1974 BMW R60/6. Reeling from a recent breakup and with only limited savings from her pub job, a tent, a few clothes and some tools, all packed on the back of her bike, she was determined to prove herself. She had ridden bikes since her teens and was well travelled. But nothing could prepare her for what lay ahead. When she returned to London nearly two and a half years later she was stones lighter and decades wiser. She'd ridden through unforgiving landscapes and countries ravaged by war, witnessed civil uprisings that forced her to fake documents, and fended off sexual attacks, biker gangs and corrupt police convinced she was trafficking drugs. She'd survived life-threatening illnesses, personal loss and brutal accidents that had left permanent scars and a black hole in her memory. And she'd fallen in love with two very different men. In an age before email, the internet, mobile phones, satnavs and, in some parts of the world, readily available and reliable maps, Elspeth achieved something that would still seem remarkable today. Told with honesty and wit, this is the extraordinary and moving story of a unique and life-changing adventure.

Cynthia Owen grew up in Ireland, went to the local convent school, said her prayers and took her first communion with all the other girls in her class. But behind the façade of respectability lurked a hideous reality. Cynthia was just eight

years old when she was sexually abused by her father amongst others. Shortly before her eleventh birthday she was made pregnant and, minutes after giving birth to the baby, Cynthia watched in horror as her own mother murdered the tiny infant, named Noleen, by repeatedly stabbing her with a knitting needle.

Cynthia's mother then wrapped the baby girl in a plastic bag, dumped her in an alleyway and made her daughter go back to school and pretend nothing had ever happened. After enduring many more years of rape and violence, Cynthia came forward and reported her abuse and Noleen's death. Finally, in 2007, after a fifteen-year legal fight to have her baby girl formally identified, the jury at the 'Dun Laoghaire Baby' inquest declared that the baby found dead in an alleyway thirty-four years previously was Noleen Murphy, the daughter of Cynthia Owen. Cynthia's is a horrific story of brutality and loss, but ultimately, it is an account of love, immense bravery and her fight for justice in Noleen's name.
