What are you waiting for? Join them quick!

How much of the devolution of power in India to the local level is real, and how much is rhetoric? Fieldwork in three different areas of Uttar Pradesh enables the authors of this book to chart the joint impact of feudal dominance and modernization policies. They conclude that the devolution of power to largely non-functioning panchayats can neither empower the poor nor relieve their poverty.

Development Failure and Identity Politics in Uttar Pradesh provides a qualitative, in-depth understanding of development failures and identity politics in Uttar Pradesh (UP). It investigates neoliberal change and political transformation in India through the lens of UP, India's largest and, by some measures, poorest state. It examines the connection between transitions in the contemporary economy of India and transformations in politics from the standpoint of UP. The book demonstrates how an understanding of dynamics in UP might provide new perspective on issues such as the state, the civil society, caste, democracy and social impact of economic reforms—issues that are the subject of vigorous debate in India as a whole.

Evan S. Connell's restraint, concision, and perfect pitch lend themselves stunningly to the short story form. He intuitively senses when to explain and when to let silence stand in speech's stead. His characters—among them, a wanderer back from Spain, the corpulent Mr. Bemis, Katia and her lion—ring true not because the stories are filled with monumental events, but because they center around seemingly insignificant experiences that remain in the mind, imbued with a meaning ever difficult to define. Often we are left to float in their wake, ending in an ellipsis of sorts. Yet by Connell's mastery, even the voices that speak only once resonate beyond the final page.

This book focuses on irrigation sources together with water management for agricultural development in Uttar Pradesh state of India. Being the most populous state of the country, it bears a burden of feeding about 199 million people of which major section relies on agriculture for their subsistence. This study makes comparison in the growth trends in the irrigated area, crop land use patterns and crop productivity at the district level in different periods of time. The book emphasizes on irrigation water management to optimize crop yields in order to increase Water Productivity of crops in low productivity regions of the state applying suitable technology. This book appeals to researchers and students in geography and planning working on the topics of agriculture as well as irrigation and water management aspects.

With reference to changes in Uttar Pradesh, India since 1970; contributed articles.
