A Review Of Logic Is Included To Gear The Reader Into A Proper Frame Of Mind. The Basic Counting Techniques Are Covered In Chapters 2 And 7. Those In Chapter 2 Are Elementary. But They Are Intentionally Covered In A Formal Manner So As To Acquaint The Reader With The Traditional Definition-Theorem-Proof Pattern Of Mathematics. Chapter 3 Introduces Abstraction And Shows How The Focal Point Of Today's Mathematics Is Not Numbers But Sets Carrying Suitable Structures. Chapter 4 Deals With Boolean Algebras And Their Applications. Chapters 5 And 6 Deal With More Traditional Topics In Algebra, Viz., Groups, Rings, Fields, Vector Spaces And Matrices. The Presentation Is Elementary And Presupposes No Mathematical Maturity On The Part Of The Reader. Instead, Comments Are Inserted Liberally To Increase His Maturity. Each Chapter Has Four Sections. "My heart wandered through the world constantly seeking after my cure, but the sweet and delicious water of life had to break through the granite of my heart." Margaret Thatcher, Mary Robinson, Gro Harlem Brundtland, Edith Cresson, and Simone Veil?these contemporary world leaders are as noteworthy for their gender as they are for the political directions they have provided. Indeed, female government leaders are so rare as to be almost an intellectual curiosity. ø Why is this the case? Why do women, who make up more than half of the world?s population, occupy so few positions at the highest levels of political power? Why are women making inroads in government in some countries while not in others? And what difference does women?s presence?or absence?make in terms of policy outcomes? ø Davis addresses these questions by examining women?s access to power through appointive channels in Western European parliamentary and parliamentary-type systems. Tracing women?s participation from 1968 to 1992 in fifteen countries, she accounts for the variation from high levels of women?s representation in Norway and Sweden to low levels in Italy and Britain. ø Little research on women and elections extends beyond the United States and Britain. Even less exists on women?s access to power through appointive

channels. By comparatively examining the elite recruitment of women through appointments, this work fills a critical gap.

Considered the father of value investing, Benjamin Graham remains one of the most acclaimed financial thinkers of all time. He revolutionized investment philosophy with his concepts of security and fundamental analyses, and value investing concepts he introduced in the classic *Security Analysis*. Benjamin Graham on Investing presents a selection of the financial genius's early articles. First written during a time of great change between World War I and the Great Depression these articles are remarkably relevant to today's changing market.

Choepori Aeschylus - Also known as 'The Libation Bearers' this is the second play of Aeschylus' *Oresteia* trilogy. Many years after king Agamemnon's murder at the hands of his wife Clytemnestra and her lover Aegisthos, his son Orestes returns home with Pylades to mourn at his grave. He has been living in exile and has come back to Argos in secret; his mission is to avenge Agamemnon's death. Orestes arrives at the grave of his father, accompanied by his cousin Pylades, the son of the king of Phocis, where he has grown up in exile; he places two locks of his hair on the tomb. Orestes and Pylades hide as Electra, Orestes' sister, arrives at the grave accompanied by a chorus of elderly slave women (the libation bearers of the title) to pour libations on Agamemnon's grave; they have

been sent by Clytemnestra in an effort to ward off harm. Just as the ritual ends, Electra spots a lock of hair on the tomb which she recognizes as similar to her own; subsequently she sees two sets of footprints, one of which has proportions similar to hers. At this point Orestes and Pylades emerge from their hiding place and Orestes gradually convinces her of his identity.

Indonesia is often viewed as a country with substantial natural resources which has achieved solid economic growth since the 1960s, but which still faces serious economic challenges. In 2010, its per capita GDP was only nineteen per cent of that of the Netherlands, and twenty-two per cent of that of Japan. In recent decades, per capita GDP has fallen behind that of neighbouring countries such as Malaysia and Thailand, and behind China. In this accessible but thorough new study, Anne Booth explains the long-term factors which have influenced Indonesian economic performance, taking into account the Dutch colonial legacy and the reaction to it after the transfer of power in 1949. The first part of the book offers a chronological study of economic development from the late nineteenth to the early twenty-first century, while the second part explores topics including the persistence of economic nationalism and the ongoing tensions between Indonesia's diverse regions.

The subject of demons and demonology has fascinated scholars and non-

scholars, ancient and modern alike; it is not surprising that much work has been done on the topic by biblical scholars too. Chapter 1 places the present study within the existing scholarship showing that the early works on 'OT demonology' were influenced by comparative religion, anthropology, and an increasing interest in Mesopotamian and Canaanite parallels as well as a concern to seek and find vestiges of ancient religious beliefs in the Old Testament. The consensus of early 20th century scholars regarding what constitutes a 'demon' in the Old Testament has not been challenged by modern scholarship. Chapter 2 shows that biblical scholars still commonly turn to the ancient Near Eastern religions and cultures to explain difficult passages in the Hebrew Bible, to find parallels or the 'original' of difficult terms and concepts. Since it is generally accepted without challenge that azazel, lilith, deber, qeteb and reshef are the personal names of 'demons' appearing in the Hebrew Bible, the necessity arises to return to the texts in order to examine each term in its context. The present study seeks to answer the question whether these five terms are names of 'demons' in the Hebrew texts as we have them today. To accomplish its goal the present study will provide an exegesis based on Close Reading of all the relevant biblical passages in which the terms azazel (chapter 3), lilith (chapter 4), deber (chapter 5), qeteb (chapter 6), and reshef (chapter 7) appear. Attention is paid to the linguistic, semantic, and

structural levels of the texts. The emphasis is on a close examination of the immediate context in order to determine the function (and if possible the meaning) of each term. The reading focuses on determining how the various signals within the text can guide towards meaning, noting how the (implied) poet/author uses the various poetical/rhetorical devices, especially personification, but also parallelism, similes, irony, and mythological elements. The present study shows that contrary to former and current scholarship there is nothing in the texts to support the view that azazel, lilith, deber, qeteb and reshef are the names of 'demons'. Azazel appears as the personification of the forces of chaos that threaten the order of creation; his role is to stand in contrast to Yahweh. The context requires that lilith is regarded as a bird, a night bird being the most plausible explanation of the term. Deber, qeteb and reshef are personifications of destructive forces and appear as agents of Yahweh, members of his 'Angels of Evil' who bring punishment (death) on the people of Israel for disobedience. There is no evidence to suggest that there are mythological figures behind azazel, lilith or the personifications of deber and qeteb. In case of reshef there is a possible connection to the Semitic deity Reshef. However, the mythological motifs are used merely as a poetic device.
