Make sure you are assembling and installing the new pulley and hardware in the same order as the old pulley and hardware. Once the pulley and hardware are in place, hand tighten the retaining bolt. Step 5: Torque the pulley. Using a torque wrench (and a socket to keep the pulley from spinning if needed), torque the pulley bolt to 40 ft/lb.

### On A Honda CR350 Engine **Idler Pulley. Follow our simple steps ...**

When you're ready to install your clothesline, drill a pilot hole for your screw hook, then screw the hook into your house, garage, tree, or whatever.

Make sure it's screwed all the way in, then clip one of your pulleys to it using a carabiner.

Repeat the process for the second screw hook at the other end of your clothesline.
