Instruction Manual Konica Minolta Dimage

The Minolta A-mount camera system was a line of photographic equipment from Minolta introduced in 1985 with the world's first integrated autofocus system in the camera body with interchangeable lenses. The system used a lens mount called A-mount, with a flange focal distance 44.50 mm, one millimeter longer, 43.5 mm, than the previous SR mount from 1958.

I'm still searching for a scanner to digitize thousands of 35mm negatives and slides. The 5MP Jumbi is fast and easy. The Jumble 22MP was a disappointment – perhaps I just got a bad unit. I have an old Konica-Minolta Dimage scanner, however that software is no longer supported and does not work in Windows. It is also a very slow slide scanner.
