Nokia is an innovative global leader in 5G, networks and phones. See how we create the technology to connect the world.

Nokia Corporation

iPhone has different minimum focus distance because it's cam has totally different focal parameters. Means that you need to keep 1020 a bit further from target when taking a macro shot. For best macro shots I'd use touch to focus, and see that the focus ring stays on viewfinder. If it won't, just go back a bit and tap to focus again.
