Each numeral from 1 through 9 has TouchPoints corresponding to the digit's value. Numerals 1 through 5 have single TouchPoints; Numerals 6 through 9 have double TouchPoints; As students count the TouchPoints, they associate numerals with real values. They learn that a numeral (3, for instance) is not just a squiggle on a page.

When teaching addition using Touch Math, the first thing you must do is teach students the touch points for numerals one through nine. The best way to do this is by making a laminated number line for each of your students. This number line would list the numbers one through nine with the touch points clearly marked on each numeral.
