A good example is how people's attitude towards diet and health is changing in the UK. Because of this, UK businesses are seeing some changes. More people are joining fitness clubs. There is also a massive growth in demand for organic food. Products often take advantage of social factors. The Wii Fit, for instance, attempt to deal with society's concern about children's lack of exercise ...

Social Factors Affecting Business - PESTLE Analysis

A wasp is any insect of the narrow-waisted suborder Apocrita of the order Hymenoptera which is neither a bee nor an ant; this excludes the broad-waisted sawflies (Symphyta), which look somewhat like wasps, but are in a separate suborder. The wasps do not constitute a clade, a complete natural group with a single ancestor, as bees and ants are deeply nested within the wasps, having evolved from ...

LONDON — "I just had to shrug it off, essentially, and know that I would not speak to that MP again." George, a Conservative Party activist in his 20s, is recalling an encounter last year with a prominent Tory MP who had suggested meeting for a drink — and then "went on to make intimations of potential sexual attraction between us."

The hidden side of Pestminster - POLITICO

The key headline when talking about food security is self-sufficiency. Currently, the UK produces 60% of domestic food by value, part of which is exported as the UK imports 46% of the food it consumes. This is a considerable reduction from being 78% self-sufficient in 1984, however, as discussed in the report part of this reduction is due to ...
