## **Regional economic outlook, Western hemisphere, October ...**

The region is seeing a modest growth uptick, but this is not uniform and the medium-term outlook remains subdued. Growth is projected to rise to 3? percent in 2018, from 2? percent in 2017, on the back of improved global growth, higher commodity prices, and continued strong public spending. About  $\frac{3}{4}$  of the countries in the region are predicted to experience faster growth.
