Scholastic Question and Answer: Did Dinosaurs Live in Your ...
For decades, experts debated what did the dinosaurs in. Some said it was a freezing ice age. Others argued that it was hot lava from volcanoes. Some had goofier guesses—like aliens kidnapping the dinosaurs! Evidence discovered in 1977 strongly suggests that the asteroid killed the dinosaurs. Scientists found a rare metal in Earth's crust.

The Day the Dinosaurs Died - Scholastic
What Did Dinosaurs Look Like? (1-2 days) Introduce the Build-a-Dinosaur activity. Explore the game with students until they become comfortable with the technology. Then allow students to create the six different dinosaurs. Also, have students create an imaginary dinosaur by mixing the various parts!

Dinosaurs! - Scholastic
But did the asteroid kill off all the dinos? The answer is no. You can still spot dinosaurs flying in the air, building nests, or laying eggs. You guessed it—we're talking about birds! After years of research, experts say that all birds belong to a group of dinosaurs called theropods. That's the group that once included the fierce Velociraptor.

Scholastic Q A Did Dinosaurs Live In Your Backyard ...
"It's likely dinosaurs shared this closed-mouth vocal behavior," says Clarke. But scientists don't know for sure. The organs dinosaurs used to make sounds were made of soft tissue. So unlike their bones, these body parts rarely became fossils. That makes it much harder to understand what a dinosaur's voice sounded like.
