Telecommunications law pertains to the systems of electronic communications and broadcasting across the United States. This area is heavily regulated by federal law and the Federal Communications Commission (FCC). Telecommunications law received a major overhaul in 1996 with the introduction of the Telecommunications Act.

Telecommunications technologies are defined by innovation and change. Telecommunications policy, however, is defined by certain enduring and recurring arguments and concepts. A priority of the course is to teach the key concepts and attendant arguments that are frequently articulated in the area of telecommunications law. 3.
