what is that gold round thing that's on a drum set ...

The drum unit is an electrically charged cylinder that transfers that toner powder to paper to create text and images. Both of these components are essential for producing a print. Depending on what printer you own, you might be used to replacing your drum unit occasionally, or you may have never had to replace a drum unit.

The Difference Between a Toner Cartridge and a Drum Unit ...

The drums were still beating, persistent and unchanging. Their sound was no longer a separate thing from the living village. It was like the pulsation of its heart. It throbbed in the air, in the sunshine, and even in the trees, and filled the village with excitement.

Things Fall Apart Quotes: Drum language | SparkNotes

Drum cartridges are a mechanism designed to be a revolving drum that actually transfer the toner that comes out of the toner cartridges to the paper. It is the toner cartridges that store the toner powder which helps to print and make images and text on paper. The drum cartridge is also known as a photoreceptor drum.
