The Paradox Of God And

The God paradox is a good example of a philosophical problem. This section has some answers to this paradox. One answer is that God could make it so he can't lift the mountain by his own choice. In other words, God can lift the unliftable mountain because he is all powerful, ...

God paradox - Simple English Wikipedia, the free encyclopedia

In Paradox, ideas, thought exercises, experiments, and practical analogies are used to explore what types of relationships we ordinary humans might have with an omniscient God. Pickover asserts that discussions on the supernatural are not beyond the domain of science.This is a groundbreaking notion, one which may forever alter how we think about religion, God, and the universe.

By this gift God asks us to die, while all we want to do is live. Within this mystery we find that surrender of ourselves defines our victory in Christ by His grace. Becoming alive by dying is a paradox, a contradiction that is only found in God's mercy.

The Paradox of God's Grace and Mercy - Ephesians 2 ...

It is a paradox perhaps worthy only of God Himself. However, the argument that humans should see God with their own physical eyes becomes infinitely more embarrassing when considering those realities which are not gleaned by the physical senses at all.

Existence of God - The Perception Paradox Part I | Review ...

God is not only master of the paradox, He is a paradox. The Epistle of Peter describes Jesus as both the most important building block and yet the biggest stumbling block. To the believer this is one more paradox from the God of the universe and beyond. The God who sits outside of time capable of knowing all, doing all, and being all inside of ...

The omnipotence paradox is a family of paradoxes that arise with some understandings of the term omnipotent.The paradox arises, for example, if one assumes that an omnipotent being has no limits and is capable of realizing any outcome, even logically contradictory ideas such as creating square circles.

Omnipotence paradox - Wikipedia

The argument from free will, also called the paradox of free will or theological fatalism, contends that omniscience and free will are incompatible and that any conception of God that incorporates both properties is therefore inconceivable. See the various controversies over claims of God's omniscience, in particular the critical notion of foreknowledge.

This argument, along with The Omnipotence Paradox and The Problem of Evil, is used by atheists to disprove the Christian God, is known as the Omniscience/Free Will Paradox, among other names. The problems with it are sometimes difficult to see because it is not often put into a syllogistic form, but if it were, it would look like this:

The Omniscience / Free Will Paradox

And because God is God, He delights to give us far more and beyond what we can understand and request. God first and foremost grants us the blessing of His presence. And in that relationship God delights, if we ask great things of Him. Such a prayer relationship with God savors time spent in the presence of our Maker and Redeemer.
