Tightening Torques. If there are no cross-references to tightening torques in the repair instructions, the extracts based on BMW Group Standard GS 90003-2. must be observed. A distinction is made between screws / bolts / nuts with surface colour / (surface coating) yellow (ZN) and silver (ZNS)

**00 00 Extract from BMW Group Standard GS 90003-2**  
BMW E60 models utilize fasteners that can only be tightened once. When these fasteners are removed or loosened, they are to be immediately discarded and replaced with new parts. At times, a torque specification for a specific fastener is not provided. In that case, BMW has provided the torque specification depending on bolt size and type.
