Background. One of the most influential elements of the Tri-Five was the recent development of their newest 265 cid (4,340 cc) V8 engine, which was first offered in 1955. It was an overhead valve high compression, short stroke design that remained in production in various forms for decades. The base V8 had a two-barrel carburetor and was rated at 162 horsepower (121 kW), and the "Power Pack ...
