Wikibooks is a collection of open-content textbooks, which anyone with expertise can edit – including you. Unlike Wikipedia articles, which are essentially lists of facts, Wikibooks is made up of linked chapters that aim to teach the reader about a certain subject.

World Studies The United States

Prentice Hall World Studies introduces middle grade students to a region and then focuses on specific countries in each region to create a context for understanding state and local standards.

World Studies: The United States and Canada: Geography ...

The United States, it turns out, cannot thumb its nose at one-time friends whenever it suits the president and then expect them to fall in line when asked. If the aspirational ideology of US foreign policy in the 20 th century was "speak softly and carry a big stick," the reality of the Trump administration has been "mock endlessly and ...

The US has a Gini coefficient of about 41 right now, and as such, is the G7 nation with the highest level of income inequality in the world. Experts say that when the income gap widens, the middle class can end up taking on debt they cannot pay off, and crime rates go up, both of which are bad for everyone.
